DRAG
Specialties

PARTS
UNLIMITED

TIRES MADE SIMPLE.

The 2014 Drag Specialties/Parts Unlimited Tire catalog keeps all the top brand name tires for Street, Drag Specialties (V-Twin), Offroad and ATV/UTV markets in one convenient place. It is our continued commitment to provide you with the best resource available, so for 2014 we've improved our tire catalog even more! New for this year, the tire size application guides feature a page number reference so you find the tire faster and easier. We've also added a size application guide to the Drag Specialties tire section as well, so now all sections include the exact same features.

Don't forget to check out the sections for tire/wheel service tools and accessories. All combined they complete what you need for all your tire sales and service needs.

Be sure to keep this catalog handy as it will be a valuable sales tool for the entire 2014 season!

All model designations and applications used herein are determined by the manufacturer as USA-specific.
Contact the individual manufacturer for additional international model information.

BASIC TIRE INFORMATION

SAFETY INFORMATION: THE FOLLOWING INFORMATION MUST BE GIVEN TO PURCHASING PERSONNEL, MOTORCYCLE TECHNICIANS, TIRE FITTERS AND CUSTOMERS.

TYPICAL TIRE MARKINGS

- 01** Nominal section width, expressed in metric, inch or alpha; see size chart below.
- 02** Ratio between tire section height and nominal section width. This ratio is not indicated when section width is expressed in inches (eg. 3.50-18).
- 03** Code for tire construction (- = Bias, R = Radial, B = Bias Belted).
- 04** Nominal rim diameter size in inches.
- 05** "Motorcycle" in abbreviated form. Differentiates motorcycle tires and rims from those designed for other vehicles. Shown on some models only.
- 06** Speed symbol. Indicates the tire's speed; see speed rating chart below.
- 07** Tubeless (TL) or tubetype (TT), as applicable.
- 08** Expresses the tire's maximum load capacity (pounds) at the pressure indicated (psi); see load index chart below.
- 09** Indicates where the tire was produced.
- 10** Abbreviation of "US Department of Transportation." Serves to indicate that the tire conforms to the regulations issued by the US Department of Transportation. Includes the serial # for the tire, and the last 3 or 4 numbers represent the date. Example 3805 means the tire was produced in the 38th week of 2005.
- 11** The arrows indicate the direction of rotation of the tire according to the fitting position (Front-rear); applicable for directional tires only.
- 12** Number of plies and material.
- 13** Tread Wear Indicator, as applicable

Note: Tire markings on chart are representational, and actual tire markings may differ from shown. Markings may vary by manufacturer.

SPEED RATING CHART

	J	L	M	P	Q	R	S	T	H	V/VB	(V)/(VB)	W	(W)
MPH	62	74	81	93	100	106	112	118	130	149	149+	168	168+

LOAD INDEX CHART

47 = 386 lb.	53 = 454 lb.	59 = 536 lb.	65 = 639 lb.	71 = 761 lb.	77 = 908 lb.	83 = 1,074 lb.
48 = 397 lb.	54 = 467 lb.	60 = 551 lb.	66 = 661 lb.	72 = 783 lb.	78 = 937 lb.	84 = 1,102 lb.
49 = 408 lb.	55 = 481 lb.	61 = 567 lb.	67 = 677 lb.	73 = 805 lb.	79 = 963 lb.	85 = 1,135 lb.
50 = 414 lb.	56 = 494 lb.	62 = 584 lb.	68 = 694 lb.	74 = 827 lb.	80 = 992 lb.	86 = 1,168 lb.
51 = 430 lb.	57 = 507 lb.	63 = 600 lb.	69 = 716 lb.	75 = 853 lb.	81 = 1,019 lb.	87 = 1,202 lb.
52 = 441 lb.	58 = 520 lb.	64 = 617 lb.	70 = 739 lb.	76 = 882 lb.	82 = 1,047 lb.	

SIZE

Size may be indicated in inches, metric, or by letters (alpha). The chart shows the approximate comparison of the different size indications.

STREET TIRE SIZE CONVERSION CHART

SAFETY WARNINGS:

MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNER'S MANUAL. FAILURE TO FOLLOW MANUFACTURER'S RECOMMENDATIONS AND REQUIREMENTS CAN CAUSE TIRE FAILURE RESULTING IN SERIOUS INJURY OR DEATH. ALL TIRES SHOULD BE MOUNTED ONLY BY TRAINED PERSONNEL. ONLY PROPERLY TRAINED PERSONNEL USING PROPER TOOLS AND SAFETY EQUIPMENT SHOULD UNDERTAKE MOUNTING OF TIRES AND THEY SHOULD FOLLOW RECOMMENDED PROCEDURES, ESPECIALLY FOR ATV/UTV TIRES, INCLUDING BUT NOT LIMITED TO THE FOLLOWING: (I) USE ONLY A CLIP-ON STYLE AIR CHUCK WITH A LONG EXTENSION HOSE, REMOTE FILLER AND INFLATION GAUGE; (II) USING A TIRE MOUNTING LUBRICANT, LUBE THE TIRE AND RIM BEAD SEAT; (III) THE TIRE AND WHEEL MUST BE LOCATED AWAY FROM ALL PERSONNEL USING A SOLID BARRIER LIKE A BLOCK WALL OR TIRE MOUNTING CAGE BETWEEN THE TIRE/WHEEL ASSEMBLY AND THE INSTALLER WITH THE TIRE/WHEEL ASSEMBLY BEING OUT OF "LINE OF SIGHT" DURING THE INFLATION PROCESS; (IV) DETERMINE THE TIRE'S MAXIMUM RECOMMENDED TIRE INFLATION PRESSURE; (V) REMOVE THE VALVE CORE FROM THE VALVE, INFLATE THE TIRE UNTIL THE BEADS' SEAT SNAP OR UNTIL THE MANUFACTURER'S MAXIMUM RECOMMENDED TIRE PRESSURE IS REACHED BUT NEVER EXCEED THE TIRE MANUFACTURER'S MAXIMUM PRESSURE; (VI) IF THE TIRE BEADS DO NOT SNAP, STOP AND RELEASE ALL AIR FROM THE TIRE/WHEEL ASSEMBLY AND CALL THE MANUFACTURER FOR HELP; (VII) ONCE THE TIRE BEAD IS SEATED, DISCONNECT THE CHUCK, RE-INSTALL THE VALVE CORE AND INFLATE TO PROPER OPERATING PRESSURE.

All part numbers in **BOLD MAGENTA** are new this year.

STREET TIRE SIZE APPLICATION GUIDE

•The following guide shows all available tires for Street Bike, Sport Bike, Scooter, Moped and Sidecar applications. Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio, market application and front and/or rear applications. Simply find the size, front or rear and market application of tire for your vehicle.

The Application corresponds to the following codes:

CRS/TOUR – Cruiser bike/touring bike applications
 DUALSPORT – Dual sport/adventure touring applications
 CUSTOM – Cruiser/custom bikes
 GEN – Commuting/general all-purpose street tire
 MEDIUM – Medium race compound
 MOPED – Moped
 MOTARD – SuperMotard tire for street/track
 OEM – OE replacement tire as suggested by the manufacturer
 RACE – High-performance track/street

SCOOTER – Scooter
 SIDECAR – General-purpose sidecar applications
 SOFT – Soft race compound
 SPORT – Sport riding/performance tire
 SPRTNG – Sport-touring
 SPRSPRT – Sport riding/track day tire
 SUPERSOFT – Softest race compound
 WS – White stripe sidewall
 WWW – Wide white wall

NOTE: The information provided here is not warranted as to the truth or accuracy by Parts Unlimited or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

METZELER MOTORCYCLE TIRES: ON THE ROAD SINCE 1892

In its 122-year history Metzeler has always satisfied market demands with German innovation. Metzeler has always been an industry leader, setting trends that others are still trying to achieve. Here are some milestones in the company's long history:

- 1890:** Metzeler became a leader in the growing aviation industry, developing a multi-level rubber manufacturing method for linen and cotton fabric. This product was used for balloon, airship and aircraft construction.
- 1892:** Metzeler played an important role in tire development for the bicycle, motorcycle and motorcar industry.
- 1937:** Set the high-speed world record for motorcycles at 173.29 mph.
- 1983:** Metzeler introduces the first cross-ply tire with a Kevlar® belt for mass production. This leads to the introduction of "MBS" – Metzeler Belt System.
- 1987:** Metzeler launches the first Silica-tread compound for motorcycle tires, called "Comp K."
- 1992:** Metzeler introduces the worldwide first 0° steel-belted radial rear tire for motorcycles – the MEZ1.
- 1996:** Metzeler develops the first 0° steel-belted radial front tire, The MEZ4.
- 2000:** Metzeler introduces the new ME880 in the size of 240/40R-18 to meet the demands of tuners world wide. With a width of 243mm it was the world's widest motorcycle tire.
- 2008:** Once again Metzeler shows its commitment to the V-Twin market by introducing the mileage proven ME880 in Alphanumeric sizes.
- 2009:** Metzeler again expands its extensive range; from new ME880 sizes to the revolutionary Interact technology.
- 2011:** Metzeler introduces the latest German made radial developed with its patented multi-zone Interact technology, the Roadtec Z8 Interact.
- 2012:** Metzeler combines its patented Interact technology with multi-compound rear tires for the ultimate high performance tire that remains consistent throughout its life cycle.
- 2013:** Introduction of the ME888 Ultra Mileage – No Compromise.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

Ask your Parts Unlimited/ Drag Specialties sales rep for copies of Metzeler's full-line brochure. Available at no charge with any Parts Unlimited order. Shipped as a 10-pack.

Sportec M5 "5 tension zones"

SPORTEC M5 INTERACT

DUAL COMPOUND-ULTRA PERFORMANCE TIRES

- Street/race performance enhanced by Metzeler's multi-zone compound technology ("D" spec only)
- Five tension zones, for exceptional grip at high lean angles and extended mileage
- Tested and approved for the BMW S1000RR
- Sportec M5 Interact™ is the most highly engineered supersport tire destined for demanding riders who face all riding conditions and demand the best performance
- High steel tension/low compound flexibility in the center area for mileage and stability; low steel tension/high compound flexibility in the shoulder for better handling and grip; high steel tension/low compound flexibility at full lean for maximum support and precision
- The tread pattern of the new Sportec M5 Interact™ is the result of an extensive series of tests to achieve high effectiveness in dry (stability) and wet (drainage) conditions, but also provides an increased life for the tire
- The shape and distribution of the tread grooves contribute to the overall performance of the Sportec M5 Interact™ with very effective water drainage as well as a superb flexibility
- Tubeless (TL)
- W-rated for speeds up to 168 mph; (W)-rated for speeds of 168+ mph

SPORTEC M3

HIGH PERFORMANCE, LOW COST TIRES

- Highest performance for dollar supersport tire on the market
- New compound technology now found in proven M3 tread pattern
- New compound offers increases in dry grip performance on both the road and on the racetrack
- Progressive handling behavior delivered by the Metzeler patented 0° steel belt and the Multiradius technology development
- Tread pattern design and differentiated compound between front and rear ensuring high wet safety feeling and extended mileage
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W) rated for speeds of 168+ mph

RACETEC INTERACT

RACE/TRACKDAY/STREET TIRES

- OE fitment on Aprilia RSV4R, BMW S1000RR and Triumph Speed Triple
- The ultimate trackday tire that provides confidence-inspiring grip and renowned Metzeler stability
- The K3 tire is the most affordable Raceday/Trackday tire available
- Lower tension in the crown area creates more flexibility for better contact to the road surface, enlarging its footprint
- High steel belt winding tension in the shoulder area ensures maximum and uniform pressure on the contact patch: the trajectory is therefore always precise, without deviation
- Latest application of the patented 0° steel belt platform
- Race tire technology for better balance in corners and under braking
- Three compounds available are precisely tuned for faster warmup and better grip
- K1 Super soft, K2 Soft and K3 Medium
- Tubeless (TL)
- W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+

Roadtec Z8 Front/Rear

**ROADTEC Z8 INTERACT™
DUAL COMPOUND-SPORT TOURING TIRES**

- Now with Metzeler multi-zone compound (O spec only)
- The Roadtec Z8 Interact also incorporates three tensions zones to provide best in-segment mileage and optimal wet performance throughout the tire's life thanks to an innovative tread pattern, a widened and more elliptical footprint, and a host of wear-resistant technologies not normally seen in motorcycle tires
- OE on BMW K 1600 GT and K 1600 GTL
- Everything about the new Roadtec Z8 Interact™ has been designed to put the rider in control. It responds like an extension of the rider's instincts, creating an invigorating blend of precise riding feel and effortless handling
- High-silica compound with nano-particles increases performance and safety in all weather conditions
- All-new profile matched with new patented tread design provides easy handling and reduced push steering for maximum confidence in all maneuvers
- A final footprint area 8% wider as compared to its predecessor due to the variation of steel belt tensions and a strategically placed tread pattern that optimizes pressures in the footprint area
- Metzeler's patented tread pattern reduces front tire land-sea ratio to 11% and the rear tire land-sea ratio to 13%. Strategically placed longitudinal central grooves provide ideal drainage for more than 3/4 of all lean angles in the wet. The remaining tread grooves work to add tread flexibility, extending the footprint for stability in the dry
- The updated design of the Roadtec Z8 improves wear regularity, which gives riders the benefit of a consistent riding performance across the tire's entire life
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

**ROADTEC Z6
SPORT TOURING TIRES**

- CMT (Contour Modeling Technology) combines different profiles to optimize handling at all lean angles
- Patented 0° steel belt technology provides stiffer carcass for perfect balance of performance for one- and two-up riding; minimized stand-up behavior under mid-corner braking situations
- Unmatched tread life thanks to the combination of carcass, compound and tread design to provide you with a totally balanced performance during the entire life of the tire
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph

ME880 MARATHON
HIGH-MILEAGE CRUISER TOURING TIRES
FOR GENERAL REPLACEMENT/OEM AND
MODEL-SPECIFIC APPLICATIONS

- Premium line dedicated to cruiser and heavy touring bikes, featuring high-tech construction not found in other cruiser tires
- Machine-specific carcass construction for exceptional riding comfort and stability at all speeds, even under heavy load
- Built to handle the higher loads and handling characteristics of cruiser and touring bikes
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature flatter tread profile and larger contact patch for better traction and mileage
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics, low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard braking
- Alpha sizes (MH, MT, MU) provide higher load capacity and increased mileage
- S-rated for speeds up to 112 mph, H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph
- Metzeler tubes available in TUBES & ACCESSORIES section
- Custom ME880 sizes available on page 23

**ME880 MARATHON XXL
UPGRADE AND CUSTOM TIRES**

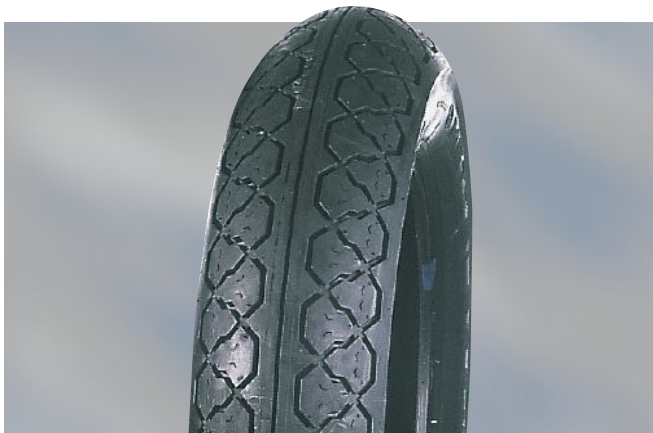

- The first radial tire for cruiser and custom bikes with the latest 0° steel belt technology
- Built to handle the loads and handling characteristics of cruiser bikes with custom frames
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature round tread profile and larger contact patch for better traction and a softer ride
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics and low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard acceleration and braking
- Be conscious of the difference between radial tires and bias-ply tires when switching sizes
- Ideal for high-quality, custom-built cruiser bikes
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds of 149+ mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

LASERTEC BIAS SPORT TOURING TIRES

- Proven tread patterns for all-weather riding
- Tread pattern design provides excellent water drainage that reduces hydroplaning, enhancing wet performance for safe riding in all weather conditions
- Special compounds ensure higher braking performance on both wet and dry surfaces
- Classic tread pattern is designed to prevent irregular wear and cupping
- Multiple-Radius Contour Design is tuned specifically for the bias-tire touring segment and provides radial-type handling
- High silica content helps provide outstanding grip in all weather conditions and reduces rolling resistance to improve mileage
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph or (V)-rated for speeds of 149+ mph

DUNLOP TIRES

Dunlop is the only company manufacturing motorcycle tires in the U.S.A. Developing innovative technology for the American market, Dunlop pursues racing at the highest levels. As the sole official tire supplier to AMA Pro Road Racing since 2009, Dunlop has introduced new tires to the AMA paddock that produce faster lap times every year. Dunlop's success also extends to the harsh conditions of off-road racing as Dunlop riders have won all the 2012 AMA Pro Supercross and Motocross championships for the third year in a row. More importantly, the tire technology we develop with input from these professional racers helps drive the creation of new tires – tires that make riding more enjoyable for all riders.

- Decades of providing Original Equipment tires to American manufacturers
- Official tire of the AMA Pro Road Racing
- Developed in the U.S.A.
- Tested in the U.S.A.
- Manufactured in the U.S.A. (where made in the U.S.A. logo is shown)

DUNLOP Q3 RADIALS

- Features Carbon Fiber Technology (CFT)
- Exhibits exceptional cornering stability, especially at high lean angles, responsive and precise steering characteristics, and predictable, smooth transitional-steering performance and impressive performance in dry conditions as a result of CFT
- New tread pattern utilizes Dunlop's cosecant-curve but with fewer grooves that are longer-track-proven to greatly enhance wet-weather performance
- Incorporates MT Multi-Tread technology providing a cool-running, long-wearing compound in the center for long tread life, enhanced straight-line stability and excellent traction, while the sides feature lateral grip compounds to enhance traction at moderate-to-maximum lean angles
- Blackwall
- (W)-rated for speeds of 168+ mph

DUNLOP TIRES

•For nearly 30 years, Dunlop has provided tires for Harley-Davidson® – and more importantly, for Harley-Davidson owners – that help Harley riders enjoy their bikes to the fullest. Our commitment to Harley-Davidson® riders grows even deeper with the American Elite line of aftermarket tires, which incorporates Dunlop's exclusive Made-in-America experience along with MT Multi-Tread technology to help deliver impressive mileage and handling.

PREMIUM REPLACEMENT HARLEY-DAVIDSON® TOURING/CRUISER TIRES

- The only replacement motorcycle tire for Harley-Davidson® bikes that is designed in America, made in America and tested in America
- Multi-Tread (MT) rear tire built with long-wearing compound in center of tread and lateral-grip compound in each shoulder to maximize cornering performance
- Tread design provides even tread wear and quiet operation in all conditions, both wet and dry
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph
- Made in the U.S.A.

TRAILMAX TR91

DUAL-SPORT/ADVENTURE TOURING TIRES

- Dual-purpose high-performance adventure touring tire
- Silica-fortified tread compound for enhanced traction and grip while helping to reduce rolling resistance
- V-shaped pattern with crossing grooves pull water quickly and effectively away from the tread contact patch
- Enhanced abrasion resistance yields higher mileage in on-highway usage, while the new tread block design provides enhanced wear resistance in off-road conditions
- Jointless Belt Technology utilizes a continuously wound belt that enables smooth performance at highway speeds, a more consistent contact patch and enhanced shock absorption
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

**COMMANDER II®
CRUISER TIRES**

- Michelin states, "Provides nearly twice the mileage of competitive cruiser tires (based on independent testing)"
- Radically different tread pattern for head-turning looks; premium sidewall treatment complements cruiser styling
- All-new rubber compounds provide remarkable wet grip without compromising durability
- Square bead wires improve casing rigidity, handling and ease of installation
- Amplified Density Technology, a highly dense, more-rigid tire casing, helps deliver excellent feedback and handling
- Commander II tires designed for dramatically extended mileage and feature Aramid tread plies to resist centrifugal growth, reduce weight and provide excellent stability
- Tubeless (TL) or tube type (TT)
- Blackwall
- S-rated for speeds up to 112 mph; H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph; W-rated for speeds up to 168 mph

PILOT® ACTIV

SPORT TOURING BIAS-PLY TIRES

- Sets a standard for bias-ply sport touring tires; 20% greater tread life than earlier Michelin bias-ply tires
- Significantly improved wet and dry grip due to increased rubber contact with road and new rubber mix
- Optimum performance throughout life of tire
- Available in a wide range of sizes; perfect for older bikes
- Tubeless
- Blackwall
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph

PILOT STREET RADIAL TIRES FOR SMALL AND MEDIUM-SIZED BIKES

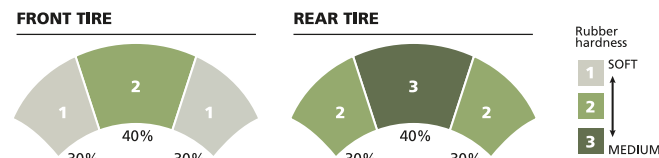

- Radial architecture that enables improved overall response and handling as well as unrivaled performance over the long term, compared with a same-size cross-ply tire
- 100% silica rubber compound delivers the best wet grip in its category, for a safe, sporty ride
- Derived directly from the radial Sport Touring ranges and a tread borrowed from the Pilot Road 2, give the motorcycle an attractive, sporty appearance
- Tubeless
- Blackwall
- H-rated for speeds up to 130 mph

SCOOTER TIRES

DUAL SPORT, PERFORMANCE AND RETRO SCOOTER TIRES

- High-quality tires proven in Europe, where scooters are a way of life
- Reggae™ features massive tread blocks and an all-weather tread compound for on- or off-road use (original equipment on the Yamaha Zuma); J-rated for speeds up to 62 mph
- S1™ has up-to-date styling that looks great on any scooter; high-performance directional tread design for durability and handling; J-rated for speeds up to 62 mph
- Bopper® features a semi-slick tread pattern derived from racing slicks for exceptional adhesion in corners; directional tread for optimal performance on front or rear wheels and a tubeless design that's compatible with tube-type rims; L-rated for speeds up to 75 mph
- S83™ is perfectly suited for classic scooters; heavily siped tread pattern for maximum grip in wet conditions; J-rated for speeds up to 62 mph
- All feature reinforced crown, with additional casing material on top of two carcass plies to resist premature wear
- Blackwall
- Front or rear application; tubeless/tube-type

Nashville-based Bridgestone Americas Tire Operations, LLC (BATO), is a subsidiary of Bridgestone Americas, Inc., whose parent company, Bridgestone Corporation, is the world's largest tire and rubber company. BATO traces its roots to The Firestone Tire & Rubber Company, which was founded in August 1900. That was when 31-year-old Harvey S. Firestone (1868-1938) began tire production with 12 employees in Akron, Ohio, while marketing solid rubber tires for carriage wheels. On the other side of the globe, in 1931, Shojiro Ishibashi (1885-1976) created Bridgestone Tire Company Ltd. (later renamed Bridgestone Corporation). He fashioned the company name by reversing the English translation of his own surname: "Ishibashi" literally means "stone bridge" in Japanese. Bridgestone quickly expanded and diversified into sporting goods and other rubber products including motorcycle tires. Bridgestone purchased Firestone in 1988 for \$2.6 billion. Combined with its new subsidiary, Bridgestone/Firestone, Inc. (BFS), Bridgestone Corporation confirmed its leadership position in the global tire market.

In MotoGP, Bridgestone became the exclusive tire supplier to all participating teams beginning in 2009. In just ten years of competition at the pinnacle of motorcycle road racing, Bridgestone riders have scored many victories and podium finishes, including MotoGP World Championships from 2007 - 2012. The technology developed and tested for racing tires makes for higher-performing and longer-lasting consumer tires. In AMA supercross and motocross, Bridgestone enjoyed many successful seasons as the exclusive tire supplier to the factory Suzuki, Kawasaki and Yamaha teams, plus the Pro-circuit/Kawasaki team, L & M Racing and Joe Gibbs Racing. Bridgestone dominance was unequaled in off-road competition in 2009. That year, Bridgestone riders captured four of the five AMA National supercross and motocross championships.

BATTLAX S20

ULTRA-HIGH PERFORMANCE SPORT RADIALS

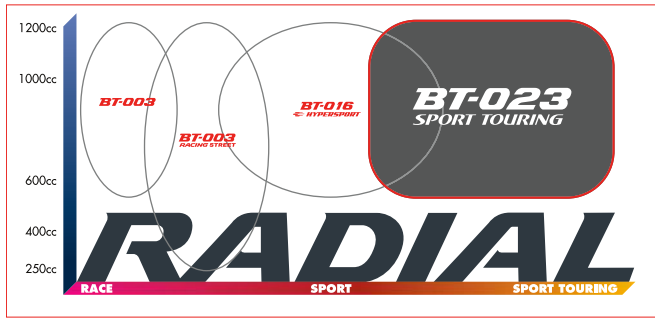

- Ultra-high performance radials designed to high handling performance and easier cornering using new tread patterns and construction technology from MotoGP
- High grip levels from new rubber compounds work in a wider range of temperatures and road conditions
- Dual compound (3LC) used for both front and rear tires
- Contact patch is optimized to improve contact with road
- Performance is maintained throughout the life of the tire
- New construction technologies and compounds include: Mono-spiral, Silica Rich EX, RC polymer and Nano Pro-Tech to achieve high levels of all-around sport bike performance
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

**BATTALX BT-016 PRO HYPERSPORT
ULTRA-HIGH PERFORMANCE RADIAL TIRES**

- Ultra-high-performance radials designed to maximize the performance of all sport bikes on the road today
- Utilize a multi-compound formulated with technology from Bridgestone's MotoGP tire development, for outstanding grip in all conditions
- Front: uses dual-compound to provide grip in all riding modes and the parallel S-shaped grooves provide optimal cornering force
- Rear: uses a dual-compound to provide stronger traction and the L-shaped grooves enhance shock absorption
- 3D-CTDM (Comprehensive Tire Design Method) is an advanced tire design technology that enables dynamic, three-dimensional simulations of tire performance at all lean angles
- Utilizes a compound containing a combination of two special components, silica-rich EX and RC polymer, offer improvement of dry, wet, life and less performance decrease
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

TRACK DAY TIRES**

- Combination of MotoGP-derived multi-compound technology (3LC) and Ultraction Compound
- 3LC (dual compound) construction on both the front and rear tire
- Medium compound center for increased durability and soft compound shoulder for increased traction
- Ultraction compound ("Ultra + Traction") stands for Ultra + Traction) applied in shoulder of front and rear tire achieves both powerful grip in braking and cornering plus high-intensity traction coming out of corners
- HTSPC-MSB (High Tensile Super Penetrated Cord - Mono Spiral Belt) technology in front and rear tire improves stability, bump absorption and reduces heat generation
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

NOTE: Mid-size Sport front sizes 110/70ZR17 and 120/60ZR17 use 3LC (dual compound without Ultraction). Similar to BT-016.

NOTE: Mid-size Sport rear sizes 140/70ZR17, 150/60ZR17 and 160/60ZR17 use 5LC (triple compound without Ultraction). Similar to BT-016.

BATTLAX SPORT TOURING T30

BATTLAX SPORT TOURING T30 RADIALS

- Sport Touring tires developed to replace BT-023 with wide-range riding enjoyment
- T30 offers improved handling with light feel, linear response and better dry grip
- New tread pattern supplies handling and grip improvements by utilizing optimized stiffness and contact patch features
- Updated Carcass Construction inspires confidence in cornering by providing increased footprint on the road, plus light, predictable handling and good line-holding
- New front rubber compound (rear is dual compound) developed using MotoGP analysis brings improved performance range of operating temperatures by utilizing RC polymer/NanoPro-Tech technology
- "GT" Spec available in five sizes to suit heavyweight motorcycles (front has modified tread pattern)
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BATTLAX BT-45
BIAS-PLY SPORT-TOURING TIRES

- Sport touring bias-ply tires for mid-sized sport-touring bikes and older sport bikes
- Features silica enriched compound for exceptional wet and dry grip
- Dual Tread Compound (DTC) in the rear allows for longer mileage than single compound and better stability from center, while shoulders offer grip and performance while cornering
- Larger crown radius contributes to excellent stability for high-speed touring
- Blackwall
- Tubeless
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph

TRAIL WING SERIES

GENERAL AND OEM REPLACEMENT DUAL-SPORT TIRES

- Four-ply front/rear combination designed for dual-sport use
- Special dimpled tread pattern means many edges to maximize traction
- Provide balanced highway and off-road performance
- Long-wearing durability
- Self-cleaning tread blocks give a traction edge for muddy and loose terrains
- TW301/TW302 50% on/50% off
- Blackwall
- Tubeless (TL) or tube type (TT)
- DOT approved
- L-rated for speeds up to 74 mph, P-rated for speeds up to 93 mph, S-rated for speeds up to 112 mph or H-rated for speeds up to 130 mph

The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

**PIRELLI TIRES:
PASSION AND PERFORMANCE**

Because passion is as important as performance, Pirelli is a brand admired worldwide. From Formula 1, World Superbike and World MX Championships – Pirelli's image inspires the imagination. Manufacturing tires at 23 factories located in 11 countries, Pirelli is the world leader in the field of tires for high-performance cars and motorcycle tires, for both original equipment and replacement. The Pirelli range includes tires for cars, motorcycles, scooters, bicycles and commercial vehicles, and among the company's strengths is its commitment to developing products with ever greater reliability and higher performance.

Pirelli has 19 World Rally Championships and 58 World MX GP Championships. Pirelli Moto is the exclusive tire supplier for all the teams competing in the World Superbike and Supersport, the Canadian Superbike Championship, and British Superbike Series and Supersport Championships and competes with top teams like Joe Gibbs Racing in the AMA Supercross Championship. Pirelli's investment as the spec-tire for World Superbike competition has led to numerous innovations that made their way into the Diablo Rosso Corsa, Diablo Rosso II and the all-new Angel GT multi-compound Extended Mileage Sport tire.

Diablo Rosso II Front/Rear

**DIABLO
ROSSO**
DIABLO ROSSO II

MULTI-COMPOUND SUPERSPORT TIRES

- Bi-Compound rear tire combining long lasting mileage with excellent grip at full lean
- Front tire's design is derived from the Diablo Rosso Corsa to provide improved drainage, better wear regularity and efficient braking
- Pirelli Enhanced Patch Technology (EPT) optimizing the contact patch for improved grip
- Functional Groove Design (FGD) to optimize wet behavior
- Slick shoulder area for maximum grip at full lean, providing confidence and top performance
- New 180/60ZR-17 size for 5.5" rims
- Blackwall
- Tubeless
- H-rated tires fit Honda CBR250RR and Kawasaki Ninja 250
- H-rated for speeds up to 130 mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

**DIABLO SUPERCORSA SP V2
HYPERSPORT TIRES**

- OE on the new 2012 Ducati Panigale
- The new SP Version 2 features the same tread design currently used in the World Superstock 1000 championship
- High modulus fiber carcass offers a lower deformation ratio and makes the entire structure stiffer to allow a better synergy between compounds and carcass
- Single Element Tread Pattern permits a 24% larger slick shoulder area (vs. previous Diablo Supercorsa), increasing contact area and grip and wear regularity
- New compounds offer great balance of mileage and grip in an ultra-high-performance product
- Rear tire uses Pirelli's patented EPT (enhanced patch technology) matched with a tri-zone compound that helps optimize the contact patch for improved grip and handling
- New 180/60ZR-17 size for 5.5" rims
- Dual compound rear
- Tubeless (TL)
- (W)-rated for speeds of 168+ mph

DIABLO SCOOTER TIRES

PERFORMANCE SPORT SCOOTER TIRES

- Bias-ply and radial tires for sport-oriented scooters
- Tread pattern adapted from the Pirelli Diablo sport tire adds the best wet handling and dry grip while limiting road noise
- High-performance tread compound imported directly from Pirelli's sport-touring tires results in more mileage and regular wear
- Larger contact patch maximizes braking efficiency and traction in all weather conditions, increasing rider safety
- Radial tires are the only scooter tires with multi-ply carcass, and patented 0° steel belt aids in high-speed riding stability and cornering even with fully loaded vehicle
- Tubeless (TL)
- P-rated for speeds up to 93 mph, S-rated for speeds up to 112 mph or H-rated for speeds up to 130 mph

STREET

**3D ULTRA SPORT
SPORT RADIAL TIRES**

- Outstanding handling characteristics
- Large footprint at extreme lean angles
- New design wind-on belt material used in rear tire increases the footprint size at all lean angles to improve grip
- Multi compound with super-rich silica compound
- 3D siping with interlocking three-dimensional points to improve stability and grip, limit tread flex, and allow the tire to warm up quickly
- Triple Extrusion (TE) tread compounds – durable rubber material in the tire center to aid mileage, and softer compounds on the tire shoulder to aid grip; a third compound underneath binds all compounds to the tire to stay cooler and increase tire longevity
- Ideal for use on high-performance motorcycles; good balance of mileage versus grip
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

INDEX

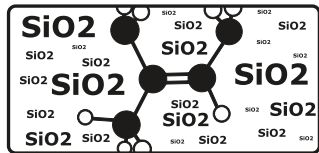

STORM 3D X-M

- Performance plus extended mileage
- Delivers 15%-20% extra mileage compared to the current Storm range
- Interlocking three-dimensional points hidden in the spines improve stability and grip, limit tread flex and allow the tire to warm up quickly
- High-performance single and multi-compound super-rich silica tread enhances wet grip (SRS)
- Superb handling and stability characteristics
- Ideal choice for today's high-performance sport-touring bikes
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

Storm 2 Ultra Sport Front/Rear

STORM 2 ULTRA SPORT/SPORT-TOURING RADIAL

- Grip, mileage and wet-weather performance
- Tri-Compound Extrusion (TE) technology – medium compound center tread with soft compound shoulders and a base that improves the bond between the tire compounds and tire carcass
- Advance Variable Belt Density (A-VBD) rear tire construction uses a densely wrapped belt in the center of the tire for stability, wear and mileage; belt is less dense on the shoulders for a large, compliant contact patch
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the life of the tire
- Super-Rich Silica (SRS) compound for fast warm-up and superior grip
- Enhanced Aqua Flow (EAF) tread pattern for optimal water dispersal
- Inverted Front Grooves (IFG) resist uneven wear and improves braking stability
- Tubeless

AV45/AV46 AZARO-ST SPORT TOURING RADIAL TIRES

- Large contact patch for even wear
- A-VBD (Advanced Variable Belt Density) radial design offers high stability at all lean angles
- ATAC (Advanced Tread Arc Combination) profile on front delivers fast-steering response
- Super-Rich Silica (SRS) S-102 silica content tire compound for fast tire warm-up and superior grip
- EAF (Enhanced Aqua Flow) tread pattern front and rear for superior water dispersion
- SBC (Spiral and Belted Carcass) has two belts to increase stability and grip under heavy acceleration (rear tires only)
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

Cobra AV71 WWW Front

Cobra AV72 WWW Rear

**COBRA AV71/AV72
CRUISER/TOURING/CUSTOM TIRES**

- Snakeskin sidewall effect complements the Cobra logo and tread design; a truly unique custom look
- Fits everything from Valkyries to Customs
- Advanced Variable Belt Density (A-VBD) rear construction uses a densely wrapped belt in the center of the tire for stability, wear and mileage; belt is less dense on the shoulder for a huge, compliant contact patch (most sizes)
- Force Following Grooves (FFG) for reduced tire noise, increased wear resistance, improved stability and better resistance to cupping
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of the tire
- Wide Custom Tread Arc (WCTA) tire profile for improved maneuverability at all speeds
- Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- Tubeless
- Blackwall (BLK) or whitewall (WWW) available in some sizes
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph or (W)-rated for speeds of 168+ mph

¹ Belted (non-radial) tire.

² Model-specific replacement tire for Honda GL1800 Gold Wing, Victory Ness/Tour/Crossroads/Cross Country/Vision.

³ Universal fitment front or rear.

VENOM-R REAR RADIALS

- Advanced casing technology for low rolling resistance, cooler running and high mileage
- Unique sequential tread pattern produces a quiet ride
- Multi-arc tread contour for light, neutral turn-in and cornering stability
- 180/55R18 tire is narrow 177mm width, good for use on customs that have narrow clearance
- Large 330-series custom size tire features a built-in rim protector
- 330-series tire recommended rim size is 12", 11.5" rim size minimum and 12.25" rim size maximum; tire outside diameter is approximately 25.0" (634mm), tire outside width is approximately 13.0" (330mm)
- Tubeless
- Blackwall
- V-rated to speeds up to 149 mph

CONTINENTAL TIRE

Continental has been around for over 100 years and has a rich history in the motorcycle industry. Continental is Germany's largest tire manufacturer, fourth largest in the world and, having been founded in 1871 in Hanover, Germany, also one of the oldest. In 1956, Continental tires were on the first motorcycle that set the Land Speed Record at over 200 mph at Bonneville. Continental tires were on Bill Warner's motorcycle that set the Land Speed Record for a "sit-on" motorcycle at over 311 mph in 2011. These feats helped propel Continental into being one of the foremost motorcycle tire manufacturers in the world today.

CONTI SPORT ATTACK 2

HIGH-PERFORMANCE HYPERSPORT RADIAL TIRES

- Extraordinary light handling with outstanding grip and stability during cornering
- Exceptional control, riding performance, and optimal feedback when riding at the limit
- 0°-steel belt construction front and rear for higher stability and feedback when braking and accelerating out of corners
- "Black Chili" compound specially designed for supersport bikes consisting of highly structured racing black carbon for excellent cold grip and quick tire warm-up, grip resins for short braking distances and silica constituents for superior wet traction
- Multi-Grip Technology ensures high mileage and maximum grip in extreme lean angles up to 51°
- Traction Skin, a revolutionary tactile tread surface with a micro-roughness that optimizes the mechanical adhesion to the road, offering the safest and fastest tire break-in available
- Blackwall
- Tubeless
- (W)-rated for speeds over 168 mph

CONTI SPORT ATTACK RADIAL TIRES

- Engineered to meet the demands of today's powerful high-performance sportbikes and naked muscle bikes
- 0° steel belt spooled onto a rayon base construction delivers the highest possible levels of grip, stability and control
- Ideal occasional track day tire
- Excellent grip in dry and wet conditions
- Excellent braking feedback
- Positive feedback at maximum lean angles
- Multi-Grip Technology features a single compound which is cured via a process to yield multiple compounds without the abrupt transitions lines between the compounds
- Continuous transition from center to shoulder equals smooth, predictable performance
- Reduced kickback under hard acceleration
- Stunning tread pattern to match today's sportbikes
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

CONTI ROAD ATTACK 2 EVO THE EVOLUTION OF HYPER SPORT-TOURING

- The latest in compound and tread technology deliver radically improved mileage combined with a level of grip, safety and dynamics never known before in the hyper sport-touring market
- New "wet grip" compound with high silica content and functional tread design provide unsurpassed grip with the upmost in confidence when roads turn wet
- Increased tread depth translates to further increased mileage
- Traction Skin, the revolutionary new micro-roughness of the tread optimizes the mechanical adhesion and offers the safest, fastest break-in period in the market
- Multi-Grip Technology is a single compound that is used through a temperature controlled curing process delivers the benefits of a multi-compound tire without the abrupt transition between the different compounds that other multi-compound tires are known for
- 0° steel belted construction, improved stability, handling and control of the bike by using patented steel cord construction and a unique contour
- Blackwall
- Tubeless
- V-rated for speeds up to 149 mph, or (W)-rated for speeds of 168+ mph

CONTI ROAD ATTACK 2 HYPER SPORT-TOURING RADIAL TIRES

- Revolutionary new technology that offers a level of grip, confidence, mileage and dynamics never known before in the sport-touring radial market
- Features Continuous Compound Technology – this is the use of a single compound with a temperature-controlled curing process that delivers the benefits of a multi-compound tire: a wear-resistant center tread area for high mileage, increased shoulder tread area for improved grip, and a continuous transition from the center of the tire to the shoulder area for smooth, predictable performance
- "Black Chili" compound for quick warm-up, short braking distance and excellent grip on wet and dry roads
- Traction Skin, the revolutionary new micro-roughness of the tread, optimizes the mechanical adhesion and offers the fastest break-in period in the market
- Features DynamicRideTechnology, a patented steel belt construction with a unique contour to improve overall handling and control
- Road Attack 2 GT features special construction design of the carcass, which improves the stability and handling on heavy touring bikes
- Tubeless
- V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph, or (W)-rated for speeds over 168 mph

CONTI ATTACK SM ADVANCED HIGH-PERFORMANCE SUPERMOTO TIRES

- Extraordinary light handling with outstanding grip curve stability
- Exceptional control of riding performance and optimal feedback in the limit range
- 0°-steel belt construction on the front and rear for higher stability and feedback when braking into and accelerating out of curves
- Good cold grip and quick tire warm-up through a newly developed "Black Chili" tread compound, specially designed for supermoto riding
- Approved Continuous Compound Technology ensures high mileage and maximum grip in extreme lean angles
- Traction Skin provides an extremely safe and short tire break-in
- Traction Skin provides revolutionary raw tread surface, the result of a mold-coating technology which eliminates the need for tire-release agents
- Blackwall
- Tubeless
- H-rated for speeds up to 130 mph

**CLASSIC ATTACK
RADIAL UPGRADE TIRES FOR CLASSIC BIKES**

- Brand new concept radial for the classic bike market
- Enhances and sharpens handling of a vintage/classic bike designed to run on bias ply tires to the level of a modern radial tire bike
- Perfect grip under all weather conditions
- Excellent mileage due to up-to-date compound technology
- Innovative tread pattern design for even wear and good water disbursement
- Improved carcass construction for easy handling and high levels of stability
- 0° steel-belted construction, front and rear, guarantees excellent stability at high speeds
- Multi-Grip Technology makes it possible to use a homogeneous grip grading with a single compound thanks to a temperature-controlled curing of the tire during the production process; Shoulder area: flexible for better grip; Zenith area: wear resistant for better mileage; Continuous transition
- Traction Skin provides an extremely safe and short tire break-in, which is possible due to the revolutionary raw tread surface – result of a new mold-coating technology which eliminates the need for tire-release agents
- Blackwall
- Tubeless
- V-rated for speeds up to 149 mph

DRAG SPECIALTIES

BASIC TIRE INFORMATION

SAFETY INFORMATION: THE FOLLOWING INFORMATION MUST BE GIVEN TO PURCHASING PERSONNEL, MOTORCYCLE TECHNICIANS, TIRE FITTERS AND CUSTOMERS.

TYPICAL TIRE MARKINGS

- 01 Nominal section width, expressed in metric, inch or alpha; see size chart below.
- 02 Ratio between tire section height and nominal section width. This ratio is not indicated when section width is expressed in inches (eg. 3.50-18).
- 03 Code for tire construction (- = Bias, R = Radial, B = Bias Belted).
- 04 Nominal rim diameter size in inches.
- 05 "Motorcycle" in abbreviated form. Differentiates motorcycle tires and rims from those designed for other vehicles. Shown on some models only.
- 06 Speed symbol. Indicates the tire's speed; see speed rating chart below.
- 07 Tubeless (TL) or tubetype (TT), as applicable.
- 08 Expresses the tire's maximum load capacity (pounds) at the pressure indicated (psi); see load index chart below.
- 09 Indicates where the tire was produced.
- 10 Abbreviation of "US Department of Transportation." Serves to indicate that the tire conforms to the regulations issued by the US Department of Transportation. Includes the serial # for the tire, and the last 3 or 4 numbers represent the date. Example 3805 means the tire was produced in the 38th week of 2005.
- 11 The arrows indicate the direction of rotation of the tire according to the fitting position (Front-rear); applicable for directional tires only.
- 12 Number of plies and material.
- 13 Tread Wear Indicator, as applicable

Note: Tire markings on chart are representational, and actual tire markings may differ from shown. Markings may vary by manufacturer.

SPEED RATING CHART

MPH	J	L	M	P	Q	R	S	T	H	V/VB	(V)/(VB)	W	(W)
	62	74	81	93	100	106	112	118	130	149	149+	168	168+

LOAD INDEX CHART

SAFETY WARNINGS:

MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNER'S MANUAL. FAILURE TO FOLLOW MANUFACTURER'S RECOMMENDATIONS AND REQUIREMENTS CAN CAUSE TIRE FAILURE RESULTING IN SERIOUS INJURY OR DEATH. ALL TIRES SHOULD BE MOUNTED ONLY BY TRAINED PERSONNEL. ONLY PROPERLY TRAINED PERSONNEL USING PROPER TOOLS AND SAFETY EQUIPMENT SHOULD UNDERTAKE MOUNTING OF TIRES AND THEY SHOULD FOLLOW RECOMMENDED PROCEDURES, ESPECIALLY FOR ATV/UTV TIRES, INCLUDING BUT NOT LIMITED TO THE FOLLOWING: (I) USE ONLY A CLIP-ON STYLE AIR CHUCK WITH A LONG EXTENSION HOSE, REMOTE FILLER AND INFLATION GAUGE; (II) USING A TIRE MOUNTING LUBRICANT, LUBE THE TIRE AND RIM BEAD SEAT; (III) THE TIRE AND WHEEL MUST BE LOCATED AWAY FROM ALL PERSONNEL USING A SOLID BARRIER LIKE A BLOCK WALL OR TIRE MOUNTING CAGE BETWEEN THE TIRE/WHEEL ASSEMBLY AND THE INSTALLER WITH THE TIRE/WHEEL ASSEMBLY BEING OUT OF "LINE OF SIGHT" DURING THE INFLATION PROCESS; (IV) DETERMINE THE TIRE'S MAXIMUM RECOMMENDED TIRE INFLATION PRESSURE; (V) REMOVE THE VALVE CORE FROM THE VALVE, INFLATE THE TIRE UNTIL THE BEADS' SEAT SNAP OR UNTIL THE MANUFACTURER'S MAXIMUM RECOMMENDED TIRE PRESSURE IS REACHED BUT NEVER EXCEED THE TIRE MANUFACTURER'S MAXIMUM PRESSURE; (VI) IF THE TIRE BEADS DO NOT SNAP, STOP AND RELEASE ALL AIR FROM THE TIRE/WHEEL ASSEMBLY AND CALL THE MANUFACTURER FOR HELP; (VII) ONCE THE TIRE BEAD IS SEATED, DISCONNECT THE CHUCK, RE-INSTALL THE VALVE CORE AND INFLATE TO PROPER OPERATING PRESSURE.

DRAG SPECIALTIES TIRE SIZE APPLICATION GUIDE

• Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio, market application and front and/or rear applications. Simply find the size, front or rear and market application of tire for your vehicle.

The Application corresponds to the following codes:

CRS/TOUR – Cruiser bike/touring bike applications
 DUALSPORT – Dual sport/adventure touring applications
 CUSTOM – Cruiser/custom bikes
 GEN – Commuting/general all-purpose street tire
 OEM – OE replacement tire as suggested by the manufacturer
 RACE – High-performance track/street
 SIDECAR – General-purpose sidecar applications

SPORT – Sport riding/performance tire
 SPRTNG – Sport-touring
 SPRSPT – Sport riding/track day tire
 NWS – Narrow white stripe sidewall
 WS – White stripe sidewall
 WWW – Wide white wall

NOTE: The information provided here is not warranted as to the truth or accuracy by Drag Specialties or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

DRAG SPECIALTIES TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

**METZELER MOTORCYCLE TIRES:
150 YEARS OF PERFORMANCE**

In its 150 year history, Metzeler has always satisfied the needs of the motorcycle rider with German innovation. Now, Metzeler has done it again for the V-Twin world with the launching of the all-new ME888 Marathon Ultra. Through the use of the latest in tire design and compounding technology, Metzeler has created a tire that satisfies the demands of the modern day V-Twin owners. A tire that delivers mileage that is equivalent to and in some cases greater than any motorcycle tire on the market, but does so without compromising performance that Metzeler riders demand. The new ME888 Marathon Ultra, ultra mileage, no excuses. Metzeler continues to offer the ME 880 Marathon which for many years has been the upgrade tire of choice for many V-Twin riders across North America and around the world. No other tire company has the fitment range and tested upgrade choices offered in the ME880 line. As always, our best spokespeople are our customers. The next time you see someone running Metzeler tires on their motorcycle, ask them about the difference our technology has made for their riding enjoyment.

**ME 888 MARATHON ULTRA
ULTRA MILEAGE - NO COMPROMISE**

- Ultra high mileage coupled with Metzeler performance and handling
- Developed in Germany for the roads of America
- Specifically designed for custom touring bikes
- Technology offering consistent performance throughout the tire's life
- Outstanding high- and low-speed stability and smooth handling
- Tubeless
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

ME880 MARATHON – HIGH MILEAGE CRUISER TOURING TIRES FOR GENERAL REPLACEMENT AND MODEL-SPECIFIC APPLICATIONS

- Premium line dedicated to cruiser and heavy touring bikes, featuring high-tech construction not found in other cruiser tires
- Machine-specific carcass construction for exceptional riding comfort and stability at all speeds, even under heavy load
- Built to handle the higher loads and handling characteristics of cruiser and touring bikes
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature flatter tread profile and larger contact patch for better traction and mileage
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics, low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard braking
- Alpha sizes (MH, MT, MU) provide higher load capacity and increased mileage
- Also available in Wide White Wall (WWW) and Narrow White Stripe (NWS)
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds up to 168 mph

ME880 XXL CUSTOM

- The ME880 is the fastest and most affordable way to upgrade your American V-twin
- ME880 continues to be the tire choice of the world's top custom builders
- Most ME880 radials feature the patented 0° steel-belt technology
- The latest in silica compounding delivers phenomenal wet grip
- Please see the upgrade chart below for sizing
- ME880's unique tread design prevents the wandering and following of rain grooves
- Blackwall
- Tubeless (TL)
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds of 149+ mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

NOTE: It is not recommended that a radial front tire be used with a bias-ply rear tire.

Stage I

Stage II

**ME880 MARATHON/
ME880 XXL TIRE SIZING GUIDE**

- Stage I front and rear applications normally do not require any modifications
- Stage II front applications may require wheel size changes or slight modifications such as wheel spacing; may also require a fender change
- Stage II rear applications may require wheel size changes, wheel spacing, pulley spacing or installing a narrower rear belt; may also require a fender change
- Stage III rear applications require major changes, such as a wide frame kit, a wide swingarm kit, transmission offset and fender changes

LASERTEC – SPORT TOURING BIAS TIRES

- Proven tread patterns for all-weather riding
- Tread pattern design provides excellent water drainage that reduces hydroplaning, enhancing wet performance for safe riding in all weather conditions
- Compounds ensure higher braking performance on both wet and dry surfaces
- Classic tread pattern is designed to prevent irregular wear and cupping
- Multiple-Radius Contour Design is tuned specifically for the bias-tire touring segment and provides radial-type handling
- High silica content of the compounds helps provide outstanding grip in all weather conditions and reduces rolling resistance to improve mileage
- Blackwall
- Tubeless (TL)
- H-rated for speeds up to 130 mph or (V)-rated to 149+ mph

SPORTEC M5 INTERACT™ – ULTRA PERFORMANCE TIRES

- Street/race performance enhanced by Metzeler's multi-zone compound technology ("D" spec only)
- Five tension zones, for exceptional grip at high lean angles and extended mileage
- Sportec M5 Interact is the most highly engineered supersport tire destined for demanding riders who face all riding conditions and demand the best performance
- The tread pattern of the new Sportec M5 Interact is the result of an extensive series of tests to achieve high effectiveness in dry (stability) and wet (drainage) conditions, but also provides an increased life for the tire
- The shape and distribution the tread grooves contributes to the overall performance of the Sportec M5 Interact™ with very effective water drainage as well as a superb flexibility
- Blackwall
- Tubeless (TL)
- (W)-rated for speeds of 168+ mph

ROADTEC Z8 INTERACT™ – SPORT TOURING TIRES

3 "tension zones"

- Now with Metzeler multi-zone compound (M and O spec)
- OE on the BMW K 1600 GT and K 1600 GTL
- Everything about the new Roadtec Z8 Interact™ has been designed to put the rider in control. It responds like an extension of the rider's instincts, creating an invigorating blend of precise riding feel and effortless handling
- New high silica compound with nano-particles increases performance and safety in all weather conditions
- All-new profile matched with new patented tread design provides easy handling and reduced push steering for maximum confidence in all maneuvers
- The Roadtec Z8 Interact **with three tension zones** provides best-in-segment mileage and optimal wet performance throughout the tire's life thanks to an innovative tread pattern, a widened and more elliptical footprint, and a host of wear-resistant technologies not normally seen in motorcycle tires
- The updated design of the Roadtec Z8 improves wear regularity which gives riders the benefit of a consistent riding performance across the tire's entire life
- Blackwall
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph

DUNLOP Q3 RADIALS

- Features Carbon Fiber Technology (CFT)
- Exhibits exceptional cornering stability, especially at high lean angles, responsive and precise steering characteristics, and predictable, smooth transitional-steering performance and impressive performance in dry conditions as a result of CFT
- New tread pattern utilizes Dunlop's cosecant-curve but with fewer grooves that are longer-track-proven to greatly enhance wet-weather performance
- Incorporates MT Multi-Tread technology providing a cool-running, long-wearing compound in the center for long tread life, enhanced straight-line stability and excellent traction, while the sides feature lateral grip compounds to enhance traction at moderate-to-maximum lean angles
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

PILOT® ROAD 4

DUAL COMPOUND SPORT-TOURING RADIAL TIRES

- For all-around sport touring use
- Stop shorter in the wet vs. the leading competitive sport touring tires and the Pilot® Road 3
- Up to 20% longer tread life than Pilot® Road 3 tires (for a single set)
- 2 Compound Technology with all-new silica-charged rubber compounds for excellent grip from 23°F to 113°F
- New XST+ siping and enhanced tread patterns for optimum grip at all lean angles
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

AV71/AV72 COBRA

- Features a snakeskin effect sidewall that complements the Cobra logo and tread design; a truly unique custom look
- Advanced Variable Belt Density (A-VBD) rear construction (see footnote exclusions) uses a densely wrapped belt in the center of the tire for stability, wear and mileage, belt is less dense on the shoulder for a huge, compliant contact patch
- Force Following Grooves (FFG) for reduced tire noise, increased wear resistance, improved mileage, improved stability and better resistance to cupping
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of the tire
- Wide Custom Tread Arc (WCTA) tire profile for improved maneuverability at all speeds
- Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- Tubeless
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph or (W)-rated for speeds of 168+ mph

3D Ultra Sport Front/Rear

3D ULTRA SPORT RADIALS

- Outstanding handling characteristics
- Large footprint at extreme lean angles
- 3D siping with interlocking three-dimensional points to improve stability and grip, limit tread flex, and allow the tire to warm up quickly
- Multi-compound
- Triple Extrusion (TE) tread compounds – durable rubber material in the tire center to aid mileage, and softer compounds on the tire shoulder to aid grip; a third compound underneath binds all compounds to the tire to stay cooler and increase tire longevity
- Ideal for use on high-performance motorcycles; good balance of mileage versus grip
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

CONTI MOTION

- Sport touring all-season radial with high-end performance at a lower price
- Ideal for entry-level riders and economic-minded veterans
- Offers safe, reliable feedback on dry or wet roads
- Newly formulated polymers in the compound deliver an impressive cost/mileage ratio
- 0° steel-belt construction for improved stability and a smooth ride
- Tubeless
- (W)-rated for speeds over 168 mph

Conti Motion Front/Rear

CONTI SPORT ATTACK 2

- Extraordinary light handling with outstanding grip and stability during cornering
- Exceptional control, riding performance, and optimal feedback when riding at the limit
- 0°-steel belt construction front and rear for higher stability and feedback when braking and accelerating out of corners
- "Black Chili" compound specially designed for supersport bikes consisting of highly structured racing black carbon for excellent cold grip and quick tire warm-up, grip resins for short braking distances and silica constituents for superior wet traction
- Multi-Grip Technology ensures high mileage and maximum grip in extreme lean angles up to 51°
- Traction Skin, a revolutionary tactile tread surface with a micro-roughness that optimizes the mechanical adhesion to the road, offering the safest and fastest tire break-in available
- Tubeless
- (W)-rated for speeds over 168 mph

CONTI ROAD ATTACK 2

- Revolutionary new technology that offers a level of grip, confidence, mileage and dynamics never known before in the sport-touring radial market
- Multi-Grip Technology – a single compound is used that through a temperature-controlled curing process delivers the benefits of a multi-compound tire without the abrupt transition between the different compounds that other multi-compound tires are known for; Center Tread Area, wear resistant = Mileage; Shoulder Tread Area = Increased grip from center to shoulder; Continuous Transition from Center to Shoulder = Smooth and predictable performance
- "Black Chili" compound for quick warm-up, short braking distance on wet and dry roads
- Traction Skin, the revolutionary new micro-toughness of the tread, optimizes the mechanical adhesion and offers the fastest break-in period in the market
- Features DynamicRideTechnology, a patented steel belt construction with a unique contour to improve overall handling and control
- Tubeless
- (W)-rated for speeds over 168 mph

**PIRELLI TIRES:
PASSION AND PERFORMANCE**

Because passion is as important as performance, Pirelli is a brand admired worldwide. From Formula 1, World Superbike and World MX Championships – Pirelli's image inspires the imagination. Manufacturing tires at 23 factories located in 11 countries, Pirelli is the world leader in the field of tires for high-performance cars and motorcycle tires, for both original equipment and replacement. The Pirelli range includes tires for cars, motorcycles, scooters, bicycles and commercial vehicles, and among the company's strengths is its commitment to developing products with ever greater reliability and higher performance. Pirelli has 19 World Rally Championships and 58 World MX GP Championships. Pirelli Moto is the exclusive tire supplier for all the teams competing in the World Superbike and Supersport, the Canadian Superbike Championship, and British Superbike Series and Supersport Championships and competes with top teams like Joe Gibbs Racing in the AMA Supercross Championship. Pirelli's investment as the spec-tire for World Superbike competition has led to numerous innovations that made their way into the Diablo Rosso Corsa, Diablo Rosso II and the all-new Angel GT multi-compound Extended Mileage Sport tire.

DIABLO
ROSSO II

DIABLO ROSSO II

- The ultimate sport tire for absolute road use
- Front tire's design is derived from the Diablo Rosso Corsa to provide improved drainage, better wear regularity and efficient braking
- Bi-Compound rear tire combining long lasting mileage with excellent grip at full lean
- Pirelli Enhanced Patch Technology (EPT) optimizing the contact patch for improved grip
- Functional Groove Design (FGD) to optimize wet behavior
- Slick shoulder area for maximum grip at full lean, providing confidence and top performance
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

Diablo Rosso Corsa Front/Rear

**DIABLO ROSSO CORSA
HIGH-PERFORMANCE TIRES**

- Profiles and structures set the new benchmark, ensure high support while cornering and fast stand-up while accelerating out of the turn
- Feature Pirelli's patented EPT (Enhanced Patch Technology), matched with a three-zone compound, optimizes the contact patch for the best grip on the road and on the racetrack
- Pure racetrack performance combined with the comfort and predictability you expect from a high-performance street tire
- Replaces Diablo Corsa III
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph (270+ kph)

PERFORMANCE TOURING/DUAL-SPORT TIRES 95% ON 5% OFF

- Replacement tires for various Buell models - replaces Scorpion Sync
- Revolutionary tread pattern combines high performance with a very innovative look
- Patented 0° steel belt technology on the front and rear offers maximum stability and excellent handling on every kind of terrain
- Latest generation of materials and compound for improved grip in all weather conditions
- Carcass designed to promote road holding at high speed and maximum comfort in varied terrain
- Replaces Scorpion Sync
- Blackwall
- Tubeless
- DOT approved; W-rated for speeds up to 168 mph

BT-003 Front/Rear

BATTALX BT-003RS

- Combination of MotoGP-derived multi-compound technology (3LC) and Ultraction Compound
- 3LC (dual compound) construction on both the front and rear tire
- Medium compound center for increased durability and soft compound shoulder for increased traction
- Ultraction compound ("Ultraction" stands for Ultra + Traction) applied in shoulder of front and rear tire achieves both powerful grip in braking and cornering plus high-intensity traction coming out of corners
- HTSPC-MSB (High Tensile Super Penetrated Cord - Mono Spiral Belt) technology in front and rear tire improves stability, bump absorption and reduces heat generation
- DOT approved hypersport street/track day tire
- Tubeless
- W-rated for speeds up to 168 mph

BATTALX BT-016 PRO HYPERSPORT

BT-016 Pro Front/Rear

- Ultra-high-performance radials designed to maximize the performance of all sport bikes on the road today
- BT016 utilizes a multi-compound formulated with technology from Bridgestone's latest MotoGP technology ("Silica Rich EX", "RC Polymer"), for outstanding grip in all conditions
- Silica Rich contains a combination of two special components to improve dry/wet/life performance
- RC Polymer controls the change of properties of rubber in any temperature and assists the Silica effect
- Front: uses dual-compound to provide grip in all riding modes and the parallel S-shaped grooves provide optimal cornering force
- Rear: uses a double-compound to provide stronger traction and the L-shaped grooves enhance shock absorption
- 3-D-C.T.D.M. (Comprehensive Tire Design Method) is advanced tire design technology that enables dynamic, three-dimensional simulations of tire performance at all lean angles
- Provides hyper flexibility to respond to strict GP regulation
- Includes good bump absorption, grip and stability during high-speed riding
- Tubeless
- W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

BATTALX BT-45V

- Sport Touring Bias-Ply tires for mid-sized sport-touring bikes and older sport bikes
- Feature silica-enriched compound for wet and dry grip
- Dual Tread Compound (DTC) in the rear allows for longer mileage and better stability from center, while edges offer grip and performance while cornering
- Larger crown contributes to stability for high speed touring
- Innovative singular sidewall improves shock absorption and neutralizes handling
- Tubeless; blackwall
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

BATTLAX T30 SPORT TOURING RADIALS

- Sport Touring tires developed to replace BT-023 with wide-range riding enjoyment
- T30 offers improved handling with light feel, linear response and better dry grip
- New tread pattern supplies handling and grip improvements by utilizing optimized stiffness and contact patch features
- Updated Carcass Construction inspires confidence in cornering by providing increased footprint on the road, plus light, predictable handling and good line-holding
- New front rubber compound (rear is dual compound) developed using MotoGP analysis brings improved performance range of operating temperatures by utilizing RC polymer/NanoPro-Tech technology
- "GT" Spec available in five sizes (front has modified tread pattern) to suit heavyweight motorcycles
- Tubeless
- (W)-rated for speeds of 168+ mph

TIRE SIZE APPLICATION GUIDE

•The following guide shows all available tires for off-road applications. Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio and market application. Simply find the size and market application of tire for your vehicle.

The Application corresponds to the following codes:

The Application corresponds to the following codes:
 Dual-Sport – Dual-sport/highway applications
 Mini – Minicycle Motocross / Off-road applications

Motocross – Motocross/off-road applications
 Sand – Tread and compound for sand applications
 Trials – Tread and compound for trials competition and trail applications

NOTE: The information provided here is not warranted as to the truth or accuracy by Parts Unlimited or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

DUNLOP OFFROAD TIRES

The entire Geomax line is the product of more than 115 national championships Dunlop has earned in the dirt, including every AMA Supercross and Motocross title in 2012. The Geomax series tires deliver exemplary performance in a variety of specific types of terrain. Dunlop is proud to announce the addition of the new AT81 and AT81RC, offering more all-around performance plus higher levels of ruggedness for off-road racing and recreational riding. Dunlop tires cover it all from high-flying Supercross and the wilds of Baja desert racing to national-champion mini riders and weekend warriors.

GEOMAX MX31

COMPETITION SERIES SOFT TERRAIN TIRES

- Patented "chiseled" shoulder block shape
- Limited block surface penetrates soft dirt/sand to contact harder ground for increased traction
- Chiseled shoulder block shape improves side traction and makes traversing ruts easier
- Tie-bar for increased block stiffness and recess design for improved soft-to-medium terrain performance
- Unique "cross-stitch" shoulder block distribution for better traction and grip in soft-to-medium conditions
- Enhanced land/sea ratio and a wider tread profile for improved traction
- Larger radius block base for strength and increased durability

GEOMAX MX51

**GEOMAX MX51
COMPETITION
SERIES INTERMEDIATE
TERRAIN TIRES**

- Design profile has more volume for excellent cornering grip and improved ride comfort
- Recessed biting edge for greater cornering traction and rut performance in a wider range of terrain conditions
- New MX51FA fronts, developed in the heat of the 2012 AMA Supercross championship
- The lighter, more nimble handling MX51FA enhance stability in hardened terrain and will help riders of all skill levels get the most out of their motocross or off-road machines
- Tie-bar for increased block stiffness and recess design for improved medium-to-harder terrain performance
- Unique "cross-stitch" shoulder block distribution for better traction and grip in medium-to-medium-hard conditions
- Larger radius block base for strength and increased durability

GEOMAX MX71

**GEOMAX MX71
COMPETITION SERIES HARD TERRAIN TIRES**

- Profile design with more tread volume in the shoulder for excellent cornering grip
- Directional front tire pattern for improved grip and cornering traction in hard pack conditions
- Directional and asymmetrical rear tire pattern for maximum traction and braking
- Unique placement of "camber traction blocks" to maximize lean angle traction and grip when exiting corners
- Geometric front tire shoulder block shape for increased cornering power, predictable slide control and braking grip
- Double tornado wave rear tire block distribution for maximum forward traction at any lean angle
- Variable spacing between center tread blocks for enhanced performance in hard-to-intermediate conditions
- GRP design for improved durability and resistance to block tearing
- Recessed biting edges in both front and rear tires yield more traction for greater grip throughout a wide range of terrain conditions

GEOMAX AT81™

- The newest generation of off-road tires
- Provide more all-around performance
- New formula high wear-resistance tire compound offers enhance chipping, tearing and wear resistance
- Rear tread block shape and distribution plus DIRTuitive Grip Design (DGD) knobs help the tire penetrate through the surface dirt for extra traction
- Rear tire carcass has two nylon plies
- Lateral grooves on shoulder knobs provide additional biting edges and allow the knobs to be more flexible
- Rear center blocks are arranged inline to provide a larger contact patch for maximum traction
- "Plush pad" recess design between tread blocks enhances compliance for bump absorption and rider comfort

SCORPION MX: 60 WORLD MOTOCROSS CHAMPIONSHIPS

DIRT-MX/OFF-ROAD: USAGE CHART

SCORPION MX

	SOFT	MIDSOFT	INTERMEDIATE	MIDHARD	HARD
MX SOFT	█	█	█		
MX MIDSOFT		█	█	█	
MX MIDHARD			█	█	█
MX HARD				█	█
MX EXTRA		█	█	█	█

MX Soft (MXS) Front/Rear
MX SOFT (MXS)

- Pure-bred competition tire for deep sand and severe mud use
- Special directional rear paddle design with bridged tread provides excellent performance
- Front slightly wider for more flotation in soft terrain
- Soft terrain compounds mated with lightweight PET HMLS carcass
- Front tire tread pattern features directional V tread block design for excellent braking and cornering performance and DOT approved

MX Mid Soft Front/Rear
MX MID SOFT (MXMS)

- Provides superior straight line traction on a wide range of terrain
- Excellent durability with long knob life
- Excellent cornering traction and stability with optimum control
- Directional front design offers maximum braking, lateral grip in a wide variety of conditions and is DOT approved
- Excellent grip and predictability in different terrain
- 120/80-19 and 90/100-21 sizes for popular 4-stroke applications
- XC MS 18" rear is same pattern
- MXMS Mud rear provides excellent traction in supersoft conditions and is the perfect soft tire choice when an MXS is a bit too aggressive

MXMH 554 Front/Rear
SCORPION MXMH 554

- New design with tread patterns developed with input from Joe Gibbs Racing MX
- Carcass and compound designed for durability and high puncture resistance
- Reduced weight and optimized handling for high speed tracks with intermediate to hard terrain
- New dimpled knobs and tread pattern is optimized to increase grip and traction
- Excellent tire to recommend for riders who use one tire for most track conditions
- Reinforced middle and side knobs feature bridges for increased lateral bite

MX Hard (MXH) Front/Rear
MX HARD (MXH)

- Special tire designed specifically for hard pack conditions
- Special stiff carcass with PET textile cord to provide good damping performance, optimized stability, and improved puncture resistance
- Reduced center knob height to prevent knobs from bending under strong acceleration and to have a wider contact area for straight line and cornering grip
- Front tire knobs with different stiffness to guarantee strong braking and maximum lateral grip, also DOT approved

MXeXtra Front/Rear
MXeXtra X/J MEDIUM-SOFT TO HARD TERRAIN

- Durable design provides traction on a wide range of conditions from medium-soft to hard terrain
- X series full-size tires feature new front and rear tread patterns with a reinforced bridged knob pattern for increased lateral bite and stability
- Mini sizes (J) keep the same tread pattern with a new sidewall/carcass design for improved performance for mid-soft to mid-hard terrain applications
- Wide knob spacing helps improve performance in both gravel and soft terrain
- Front tire is DOT approved

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

MXH Front/Rear

SCORPION MXH
HARD TERRAIN MX TIRES

- Designed for hard-packed supercross and motocross tracks
- Front tire features reversible tread pattern to dial in best performance for intermediate or hard terrain
- Twin knobs allow high degree of flexibility while compound keeps their edges sharp
- Reinforced sidewall for puncture resistance, yet lightweight due to processing technique
- 120/80-19 and 90/100-21 sizes for popular 4-stroke applications
- Low-profile design for quick, precise steering

Scorpion MXeXtra Front/Rear

SCORPION MXeXtra-X
MEDIUM-SOFT TO HARD
TERRAIN TIRES

- The X series full-size tires feature front and rear tread patterns with a reinforced bridged knob pattern for increased lateral bite and stability
- Mini sizes (J) keep the same tread pattern with a new sidewall/carcass design for improved performance for mid-soft to mid-hard terrain applications
- Feature high durability and consistent performance
- Built with a high module carcass construction that provides maximum bump absorption and feel
- Provides traction on a wide range of conditions from hard to medium-soft terrain
- Best tire for any rider looking for a more durable, all-around tire

SCORPION RALLY DAKAR RALLY CHAMPIONSHIP-WINNING TIRES – DOT APPROVED

- Pirelli continues to develop high-performance, race-winning tires for the Scorpion family – the Scorpion Rally, which had a two-year development cycle, captured first and second place in the 2009 Dakar Rally
- The front knob layout of the Rally is designed to give directional stability, even during high-speed riding
- The rear knobs provide rotational traction for the most demanding terrains
- With an Advanced Mixing Process, the Scorpion Rally resists fatigue and has a long-life performance
- All of these components are complemented by an innovative tire structure that guarantees world-class performance with a tire that has a high resistance to puncture
- DOT-approved front and rear; R rated for speeds up to 106 mph

S12XC Front/Rear

M12XC Front/Rear

S12 XC™/M12 XC™

SOFT TO INTERMEDIATE AND INTERMEDIATE TERRAIN TIRES

- Designed to maximize traction
- Newer rear rubber mixture improves durability by at least 25-30% over Michelin's S12 and M12 tires
- Larger-diameter beads and thicker bead filler area help make sidewalls more rigid than before, which improves feedback
- Additional thin casing ply under the tread helps improve traction and feel, and speeds warm-up time
- S12 XC soft to intermediate terrain tires feature tall, narrow knobs for mud penetration; front knobs turned 45° for mud evacuation
- M12 XC intermediate tires provide dependable traction and steering in mixed conditions and feature widely spaced knobs to shed mud quickly

MS3 Front/Rear

MH3 Front/Rear

STARCROSS® LINEUP
SOFT TO INTERMEDIATE TERRAIN AND INTERMEDIATE TO HARD PACK TERRAIN TIRES

- Developed especially for serious racers
- Reversible tread pattern with a tread-wear indicator that clearly shows when to reverse the tire on the rim – when the "M" disappears, the tire can be turned around
- Mirror-image knobs provide equal traction in both directions on a wide range of terrain
- StarCross® MS3 features an M-block knob pattern with reinforced scoop-like knobs that are widely spaced
- StarCross® MH3 features massive knobs to resist chunking and reshaped side knobs for better grip
- Strong casings incorporate three cross-woven polyamide plies
- Staggered shoulder knobs for superb cornering action
- Super stiff sidewalls for high-impact shock absorption on landings
- Flexible tread minimizes rebound on rough tracks and helps keep tire in contact with the ground

HP4 Front/Rear

STARCROSS® HP4
HARD PACK TIRES

- Developed especially for supercross and very hard-packed outdoor tracks
- Wider front tire provides a larger contact patch that enhances predictability in blue-groove conditions
- Taller, wider front casing provides greater air volume for absorbing hard landings
- Closely spaced, reinforced knobs help maximize contact patch and resist tearing and chunking on hard terrain and rocks
- Wave-like knob pattern on the rear enhances grip in dusty, hard-packed conditions

Trail Light Front/Rear

TRIAL LIGHT™

- Updated casing design improves lateral stability in corners compared with earlier Michelin trials tires
- Trial X Light™ rear is more than a pound lighter than its predecessor, reducing unsprung weight, for improved suspension response and maneuverability
- Compatible with low air-pressure settings; recommended pressures for trials use: 6 psi front, 5 psi rear
- Redesigned bead area increases sidewall rigidity to reduce tire movement on rim, even at very low air pressure
- Maximized Contact Patch casing for better grip on loose surfaces and when cornering
- More flexible tread area for better grip on obstacles and rocks
- M-rated for speeds up to 81 mph

MC 4 SOFT TERRAIN TIRES

- Metzeler's championship-winning dirt tires are value-priced with excellent durability, handling and traction
- Designed to excel in soft to medium-hard conditions with a stable carcass and self-cleaning knob design
- Aggressive center knob pattern delivers excellent straight-line traction and braking
- Low-weight/high-strength carcass for stability, bump absorption and puncture resistance
- Offset side knobs for increased cornering traction
- Puts the power to the ground for great hoeshots, straights and solid cornering

MC 5 INTERMEDIATE TERRAIN TIRES

- Metzeler's championship-winning dirt tires are value-priced with excellent durability, handling and traction
- MC 5 front features widely spaced center knobs for good braking performance
- Tread design uses small knobs that are able to penetrate harder soil, combined with paddle-type knob position for good traction on loose soil
- Reinforced shoulder knobs give excellent grip under full lean
- Soft center area of tire provides good damping properties and feedback
- Rear tire uses solid center knobs in a row and intersected knobs in shoulder area for good traction on loose soil or sand
- Reinforced shoulder knobs allow controllable slides

MC 6 HARD TERRAIN TIRES

- Metzeler's championship-winning dirt tires are value-priced with excellent durability, handling and traction
- Front tire features intersected knobs that provide grip for hard braking
- Widely spaced knobs can gear with track surface so tire won't slip, even on watered tracks
- Uniform knob distribution provides light handling and good feedback
- V-shaped knob orientation provides straight-line stability and helps tire resist following longitudinal grooves
- Rear tire has intersected center knobs for softer starting grip on hard pack
- Intersecting knobs in mid-shoulder area provide extra traction on smooth, hard surfaces
- Twin shoulder knobs provide constant grip and good control

M203 Front/Rear

**M203 FRONT/M204 REAR
SOFT TO INTERMEDIATE TERRAIN TIRES**

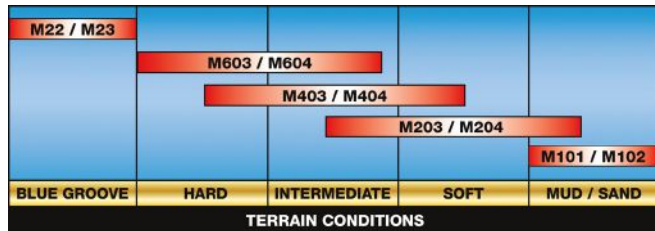

- Revolutionary tire-design technology provides comfort and bite in a broad range of soft to intermediate terrain applications
- M203 (front) increases grip traction, stability and braking power with a directional pattern rotation
- M204 (rear) includes tall tread blocks with shoulder steps for stability and durability on a wide range of soil conditions
- Improved grip and traction matched with proper sizing adapts to the demands of today's 4-stroke engines

**M403 FRONT/M404 REAR
INTERMEDIATE TERRAIN TIRES**

- Bridgestone's broadest range of motocross and off-road tires
- Features rubber compounds, tread design patterns and fine-tuned casing constructions that are race proven
- Derived from top factory SX/MX and off-road racing technologies
- The tires are more durable and cover a wider range of soils
- Front tires provide improved cornering control and feedback even at full-lean angles
- Rear tires offer added traction and slide control for better acceleration out of corners

**M603 FRONT/M604 REAR
INTERMEDIATE TO HARD TERRAIN TIRES**

- M603 (front) features a mid-chamber basin that provides flexibility and plant without sacrificing the stiffness of the tread block
- Each block will adapt to the ground surface to give an improved balance of lean grip, straight drive stability and light handling
- M604 (rear) has a broad-range pattern which cuts through loose terrain to find traction and grip on a firm base
- The improved grip and traction adapts to the high power and torque of current 4-stroke engines

LEGION MX-V

INTERMEDIATE TERRAIN TIRES

- Features an innovative tread pattern designed for dominance on the motocross battlefield
- Long, varied tread pitches ensure that the tire hooks up in the variety of soil conditions found on a typical intermediate MX track
- Optimized tire profile provides a smooth transition to the shoulder through turns
- Advanced carcass construction virtually eliminates tire roll in corners
- Center tread knobs on the rear tire claw forward and clean out
- Shoulder knobs provide a stable platform for traction when leaned over
- Front shoulder knobs are uniquely shaped, delivering extreme braking traction and control into and around corners

TRAIL ATTACK 2

**DUAL-SPORT RADIAL TIRES
90% ON-ROAD/10% OFF-ROAD**

- Advanced adventure touring/dual-sport tire for large-capacity bikes
- Engineered to meet the demands of today's modern powerful, high-performance adventure touring/enduro machines
- 0° steel-belt construction on the rear tire delivers superior stability and comfort even at high cruising speeds and high loads
- Reinforced carcass on the front tire utilizes a newly designed tread pattern to ensure higher precision and optimized wear
- Improved touring compound offers high grip in all wet and dry conditions combined with excellent mileage for long trips
- Exceptionally quick warm-up time
- Stunning new tread pattern adapted from the Conti-Attack family
- Continuous Compound Technology makes it possible to use a homogeneous grip grading with a single compound thanks to a temperature-controlled curing of the tire during the production process
- Shoulder area, flexible for better grip
- Zenith area, wear resistant for better mileage
- Continuous transition
- Traction Skin provides an extremely safe and short tire break-in which is possible due to the revolutionary raw tread surface; result of a new mold-coating technology which eliminates the need for tire-release agents
- Tubeless
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph

K781 Rear

**K781 TRIPLE STICKY
HARD TERRAIN REAR TIRES**

- Developed and tested in arenacross and supercross races
- Low-profile sidewall for improved cornering stability and cornering traction
- Designed for hard-packed, slippery surfaces
- Dimpled knobs allow for quick tire warm-up and extra traction
- Lightweight 4-ply rated casing structure with reinforced sidewall

SIZE	TL/TT	PART #	SUG. RETAIL
110/80-19	TT	0313-0271	\$105.95
120/80-19	TT	0313-0272	110.95

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

K784 Front/Rear

**K784 BIG BLOCK
DUAL SPORT TIRES**

- Kenda's all-new and true "Adventure" tire combination
- Designed specifically to meet the demands of the high powered adventure rider
- Features large tread blocks for improved tread wear and high speed handling
- High-impact casing provides a high level of puncture resistance
- Includes bias belted casing for improved handling and stability
- Rubber compound
- Created specifically for wet-slick and dry-hard packed terrain
- DOT and E-mark approved
- Q-rated for speeds up to 100 mph

ATV/UTV

ATV/UTV TIRE SIZE APPLICATION GUIDE

The following application guide shows all the options available when re-ordering ATV/UTV tires. Simply match the size of the tire you are replacing, find it in the chart and choose from all the options listed. For pricing, please see each respective brand listing.

The "STYLE" column corresponds with the following:

- AGRSV – Aggressive mud and snow conditions
- INT – Intermediate mud and snow conditions
- ASPH – Hard-surface use
- KNOB – Standard knobby style

- OEM – Original equipment manufacturer replacement
- SPORT – Sport performance
- SAND – Sand use only
- TURF – Turf applications

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

ATV/UTV TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

Swamp Fox

SWAMP FOX AGGRESSIVE ALL-SEASON/ ALL-TERRAIN ATV TIRES

- Advanced tread design goes through the most difficult terrain without bogging down
- Computer-enhanced tread pattern for stability and traction at any speed
- Reduced weight and deep tread reduces stress on drivetrain parts
- Dimpled, reinforced lugs give more biting edges for exceptional grip on muddy and hard-pack surfaces
- Aggressive shoulder knobs add side bite in deep ruts and protects against punctures
- Includes stylish color hot patch
- Rugged 6-ply natural rubber compound for superior puncture resistance and maximum durability
- ⁵/₈" tread depth

V-TRAX

FRONT AND REAR MULTI-USE UTILITY TIRE

- Designed with an All Terrain pattern in a 6-ply rated nylon casing makes this one tough tire
- Perfect choice for Kawasaki Mule 2500/2510/3000 and 3010 models
- Provides excellent traction in loose loamy terrains as well as sure-footed control on hard packed conditions
- Designed with aggressive shoulder knobs that wrap around the shoulder for increased side bite and sidewall protection
- The non-directional tread design makes this tire an unbeatable choice for use on the farm or recreational terrain
- Natural rubber compound increases your puncture resistance

MUD LITE XTR XTREME TERRAIN RADIAL ATV TIRES

- The industry's first Xtreme Terrain Radial tire
- Combine the award-winning technology of the Mud Lite and 589 M/S tires to produce the smoothest riding mud tire on the market today
- Super aggressive tread design features deep, angled, grooved lugs to achieve an exceptional level of traction
- 6-ply tough yet light in weight
- Two diameters provide you with the ability to tailor a tire choice to your specific riding requirements
- 12" option is ideal for primarily muddy conditions, offering better flex and tire flotation
- Radial construction means the Mud Lite XTR rides smoothly and finds more traction than bias-ply tires because of a larger contact patch; a radial tire's footprint actually grows under load

TERRACROSS R/T XD

- The already successful TerraCross R/T tire is now even tougher
- Extreme Duty construction translates into an extra sidewall ply along with increased sidewall and tread rubber thickness for even better puncture protection
- Special rubber compound is constructed of an extended-wear formula for incredibly long tread life
- 14" tires are UTV rated at 1,000-lb. maximum load capacity per tire at 12 psi; 12" tires are now also UTV rated
- Features exceptional traction and flotation due to interlocking non-directional tread pattern and wide footprint
- Radial construction makes for better control and smoother riding
- Wraparound shoulder lugs protect sidewall and offer great traction when riding on rutted trails
- 6-ply rating

HOLESHOT ATR ALL-TERRAIN RADIAL ATV TIRES

- ITP's first radial all-terrain tire
- Combines legendary Holeshot performance with all the benefits of radial tire design
- Amazingly smooth ride quality due to more flexible sidewalls
- Increased traction over variable trail conditions because of its larger contact patch
- Lower profile produces better cornering characteristics
- Tough 6-ply rating makes it extremely durable

**HOLESHOT XCR/XCR-03
CROSS-COUNTRY ATV TIRES**

- Our popular MX-style tread and technology now available for cross-country riders
- Lightweight 6-ply casing with proven tread pattern for quick steering with no side-to-side deflection

XCR-03 REAR

- The cross-country/trail tire of the future
- Design removes half the knobs off the corner of the tire to improve cornering ability
- Stronger nylon cord and actual tire height of 20.25" give you a more puncture-resistant tire with extreme handling and ultrasmooth traction
- Perfect for GNCC competition

SIZE	PLY	PART #	SUG. RETAIL

The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

Holeshot HD Front/Rear

**HOLESHOT HD
XTREME DUTY ATV TIRES**

- Re-engineered to handle the most extreme trail conditions possible
- Wider than other trail riding and racing tires to help climb out and stay out of ruts
- Stepped shoulder knob design offers an additional degree of side bite and rut control
- Surprisingly light with unmatched puncture resistance
- Tough 6-ply rating makes it extremely durable

SIZE	PLY	PART #	SUG. RETAIL
FRONT

Holeshot SR Front/Rear

**HOLESHOT SR
SPORT RADIAL ATV TIRES**

- A perfect marriage of Holeshot performance and the smooth ride of a radial
- Better traction and more comfortable ride over a bias-ply tire
- Dual-sided knobs dramatically increase acceleration on intermediate to hard surfaces
- Low profile and light weight provide MX-style handling
- Knobs are widely spaced to deliver predictable braking and sliding while providing great self-cleaning capabilities
- Long-wearing tread compound extends the life of the tire

All part numbers in **BOLD MAGENTA** are new this year.

Holeshot XCT Front/Rear

**HOLESHOT XCT
DESERT/TRAIL ATV TIRES**

- Special rim guard protects wheel and helps prevent air loss
- Designed to be the most puncture-resistant tires available
- Holeshot XCT tires use the same heavy-duty sidewall design as Carlisle's six-time Grand National Cross Country Championship-winning XC tires and add a more aggressive tread pattern
- Taller size of XCT tires makes them the perfect sport/trail ATV combo
- 23" front is the only replacement for Polaris sport models

QUADCROSS MX2

- All-new tread design utilizing the distinctive QuadCross tread optimizes traction control and offers precise steering on hard to intermediate track conditions
- Specially designed tire carcass inspires confidence by offering an industry leading balance of compliance and feedback
- Available in a standard and deep-tread version
- Deep-tread version optimizes traction control and offers precise steering on intermediate to loose, loamy track conditions while decreasing braking distance

Quadcross MX2

QUADCROSS MX PRO LITE MOTOCROSS ATV TIRES

- The evolution of the popular Quadcross MX Pro, the MX Pro Lite is one pound lighter in front and two pounds lighter in back
- Tested and developed with the Kawasaki and Yamaha factory race teams
- Designed for use on hard-packed, blue groove motocross tracks
- Shoulder profile offers greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound offers incredible grip with extended wear characteristics
- 2-ply carcass uses a sidewall apex design that stiffens the sidewall during side loads without sacrificing ride quality; delivers better acceleration, braking, cornering, balance and feel
- Front tires have a dual-ribbed knob pattern for a light feel, less lateral roll and improved handling

QUADCROSS MX PRO MOTOCROSS ATV TIRES

- The newly designed Quadcross MX Pro reaches a new level of performance for motocross race tires; tested and developed with the Kawasaki and Yamaha factory race teams
- Designed for use on hard-packed, blue groove motocross tracks
- Shoulder profile has been redesigned from the original Quadcross MX to offer greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound is soft for impressive acceleration and braking, but delivers the durability of a much harder rubber
- Front tires have a dual-ribbed knob pattern for a light feel, less lateral roll and improved handling

**QUADCROSS XC
CROSS-COUNTRY TIRES**

- All the great features of the Quadcross MX Pro with extra strength and larger sizing required for cross-country riding
- Shoulder profile offers greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound offers incredible grip with extended wear characteristics
- Tough 6-ply carcass offers high puncture resistance and impressive durability; design stiffens sidewall during side loads without sacrificing ride quality; delivers increased acceleration, braking, cornering and overall balance while reducing the bounce often found with knobby, cross-country tires

Clincher Front/Rear

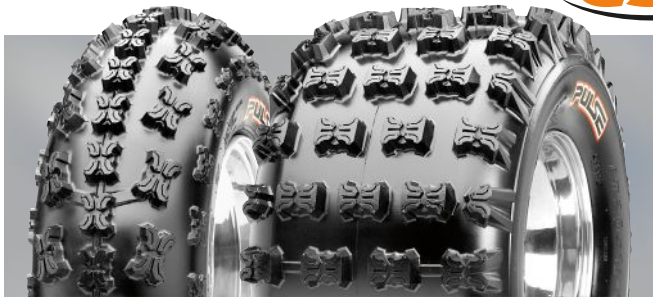

CLINCHER MULTI-TERRAIN ATV TIRES

- Radial construction offers a plush ride, absorbing jarring feedback from rocks, roots, braking bumps and other obstacles
- Larger contact patch than a bias ply tire keeps more rubber on the ground for greater traction
- Interlocking "C" design keeps the center tread rolling smooth over hard pack, while more aggressive shoulder knobs provide extra bite
- Smooth, predictable performance through a wide variety of conditions
- Non-directional tread pattern

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

HF247 Front

HF245 Rear

**HF247/245
RACING ATV TIRES**

- HF247 front tires feature a tread pattern designed for fast-cleaning traction
- Low-profile HF245 rear tires look like knobby tires, but slide in the corner like flat track tires
- Both front and rear tires feature stiff sidewalls, deep tread design and a medium-soft rubber compound
- These tires make a winning combination

**TYPE 387X
ATV/UTV WHEELS**

- Built to meet the demands of the ATV/UTV market, Moose Utility Division is proud to introduce the 387X line of wheels
- Whether it is in the woods, deep mud or sand, the 387X is prepared to take it on
- All Moose wheels are 100% X-rayed on the production line to ensure quality and reliability
- Handles load capacities from 675 lbs. for the 12x7 and 14x7 front, to 1,150 lbs. for the 12x8 and 14x8 rear, which meet, or exceed all current market requirements
- Available in gloss black or machined finish with chrome center caps and rivets
- Center caps are included with each wheel, but lug nuts must be ordered separately

¹ Mule 2500/3000/4000 require lift kit when 26" or larger tires are used.
² Sportsman XP 09 is 5" wider with after market wheels.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

¹ Sportsman XP 2009 is 5" wider with aftermarket wheels.
² Requires a lift kit if running 26" or larger tires.
³ Uses lug nut PART #s 0232-0204 (black) and 0232-0203 (chrome).

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

TYPE 158 BUCKSHOT WHEELS continued on next page.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

¹ 2" wider stance.

² Sportsman XP 09 is 5" wider with aftermarket wheels.

TYPE 158 BUCKSHOT WHEELS continued on next page.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

		14x8	4/110	4+4	0230-0411	-	0232-0134	-	0232-0132	

¹ 2" wider stance.
² Sportsman XP 09 is 5" wider with aftermarket wheels.
³ If using 26" tires a 2" lift kit will be required.
⁴ Not for Prowlers with 14" OEM rims.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

Polished standard

Polished rolled lip

Black rolled lip

Standard lip

Rolled lip

AMS SPUN ALUMINUM WHEELS
STANDARD-LIP SPUN ALUMINUM WHEELS

- Lightweight, durable and attractive
- Constructed from .190 gauge T-6061 aluminum, heat treated for optimal strength, and polished to a high luster
- Precisely manufactured to maintain a consistent thickness across the profile of the wheel; ultradurable
- Lightweight (less rotating mass) for more available power and light, predictable steering
- Ideal for use in sand, competition and recreational use
- Available in 10x5, 9x9 and 10x8 sizes
- Come individually boxed

ROLLED-LIP SPUN ALUMINUM WHEELS

- All of the features of the standard lip wheel except these wheels have a rolled lip
- A more durable, impact-resistant wheel while remaining very light
- Rolled lip provides for easier tire mounting
- Polished or durable black powder-coat finish available
- Available in 10x5 and 9x8 sizes

BEAD-LOCK SPUN ALUMINUM WHEELS

- Outer bead lock ring keeps tire bead secure
- Rolled inner lip provides excellent impact resistance
- Virtually indestructible; ideal for competition use
- Available in a beautiful polished finish
- All spun wheels come individually boxed
- Available in 10x5 and 9x8 sizes

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

INDEX

ULTIMATE-UT WHEELS

- Lightweight race wheels designed for the increased weight of today's utility ATVs and side-by-sides
- A load rating much higher than the competition
- Light enough for the sand yet strong enough for the trail
- The strongest of DWT's Sport series and is the optimal choice for a lightweight yet super strong wheel
- Specifically engineered for heavy duty ATV racing
- Designed by combining a reinforcement ring with DWT's exclusive hollow rolled-lip construction; the lightest way to reinforce the bead area
- .190 outer beadlock half; .190 inner rolled lip half; .190 reinforced center plate
- Tapered lug nut holes (lug nuts sold separately)
- Made in the U.S.A.

ROK-OUT JR FRONT WHEEL

- Perfect for the young ATV racer
- Just like the Rok-Out but made with .125" thick aluminum
- Hollow rolled lip construction is the lightest way to reinforce the vulnerable bead area
- Universal built-in patented Rock Guard which works with all stock front hubs and most aftermarket hubs and stiffens the wheel center
- Stops outside debris from entering and prevents damage to brake lines, caliper and wheel
- Eliminates stock OEM steel Rock Guard plates for further convenience and weight reduction
- Front wheel is 10x5 with offset 3+2 and bolt pattern 4/144

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

SD beadlock

SD dual beadlock

SEVERE DUTY (SD) BEADLOCK WHEELS

- The must-have racing wheels, especially when de-beading means the difference between getting there and getting back
- An advanced manufacturing process makes the aluminum alloy Severe Duty wheels incredibly lightweight and ultra-strong
- 14x7 wheels feature beadlock design on both inner and outer wheel lips, providing total tire security
- 12x7 wheels feature secure beadlock on the outer lip, and ITP's Rock Armor reinforced inner wheel lip
- All SD wheels include an authentic center cap
- Made using ITP's exclusive Advancecast process
- Available in 12x7 and 14x7
- Available with polished, chrome or black finish
- Each wheel comes with a polished outer beadlock ring
- Lug nuts and center caps sold separately

C-SERIES TYPE 7 BEADLOCK WHEELS

- All the benefits of beadlock design combined with the proven performance of the one-piece aluminum C-Series Type 7 wheel
- Outer beadlock ring clamps the tire to the wheel, greatly reducing the chance of tire debanding while riding with low tire pressure or encountering heavy side loads; ring also adds further stability to an already durable wheel
- Made using ITP's exclusive Advancecast process
- Available in 12x7 and 14x7
- Available with polished, chrome or black finish
- Each wheel comes with a polished outer beadlock ring
- Lug nuts and center caps sold separately; see page 289-291

¹ OEM offset replacement front wheels.

T-9 PRO MOD LIGHTWEIGHT ATV/UTV WHEELS

- The popular T-9 Pro series of spun aluminum wheels has been expanded to work with heavier ATVs and UTVs
 - Off-road modular style and angled outer wheel face combine to add considerable strength to the wheel center without adding weight
 - Lighter than the competition; reduced unsprung and rotating mass
 - .19" wall construction
 - Double-rolled lip
 - Lug nuts sold separately; see pages 289-291
- NOTE: All applications require use of ITP lug nut; stock lug will not work.**

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

T-9 PRO BAJA AND GP WHEELS

SUPER HEAVY-DUTY SPORT AND COMPETITION ATV WHEELS

GP T-9 PRO SERIES

GP T-9 Pro Series

Baja Series

- The next step in the T-9 Pro Series
- Designed with a double-rolled wheel for great durability
- Rolled lip is much stronger than standard wheel while remaining lighter
- Rolled outer edge eases tire mounting
- Available sizes are 9x8, 10x5 and 10x8
- Available with polished or black finish
- Lug nuts sold separately; see page 289-291

T-9 BAJA SERIES

- Designed with inner and outer reinforcing rings that are rolled in, not welded
- Design gives you a better wheel at a lower cost
- Amazingly light and still able to offer an extremely high level of strength
- Available sizes are 8x8.5, 9x9, 10x5 and 10x8
- Available with polished or black finish
- Lug nuts sold separately; see page 289-291

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

Outer beadlock rings

Polished

Black

T-9 PRO TRAC-LOCK WHEELS

- Competition-ready wheel that offers exceptional tire retention
- Lighter than ITP's Pro Lock with easier tire mounting and a lower price
- Features a 5mm (.190") wall with a strong, yet light, center
- Durable, double-roll inner lip
- Precision-formed outer bead retention ring; attached with recessed Allen bolts
- Available with polished or black finish
- Replacement polished and black outer beadlock rings available separately; sold each
- Lug nuts sold separately; see page 289-291

INDEX

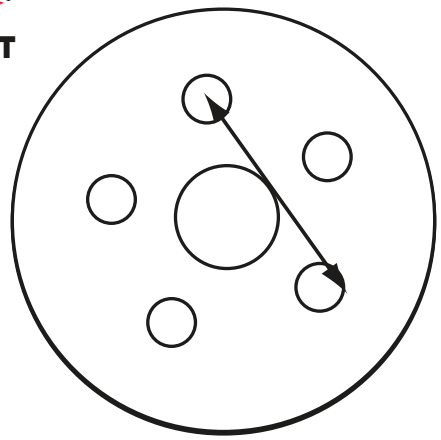

ATV WHEEL APPLICATION CHART
HOW TO MEASURE BOLT PATTERN

3-LUG - Middle of one hole to outside line across other two holes (example 3/100)

4-LUG - Middle of two holes directly across from one another (example 4/110)

5-LUG - Back of one hole to the center of the second hole (example 5/130) (NOTE: This is the easiest way we know to estimate the 5-lug bolt circle.)

¹ 8" rims.
² Add 1" width per side.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

**MOOSE 901X/387X
TIRE/WHEEL KITS**
**AGGRESSIVE ALL-SEASON/
ALL TERRAIN ATV/UTV
TIRE/WHEEL KITS**

Machined/black
kit shown

- Kits combine the new Moose 901X tires mounted on the stylish and durable 387X wheels
- The Moose 901X, with its offset V tread design and side lugs, offers high performance in mud, snow and sand
- 6-ply construction for superior durability and puncture resistance
- Lugs are recessed in the center for added surface area for better traction
- Pebbled design in between the lugs makes for better clean-out between lugs when riding in sticky clay and mud
- All Moose wheels are 100% X-rayed on the production line to ensure quality and reliability
- Wheels handle load capacities from 675 lbs. for the 12x7 front, to 1,150 lbs. for the 12x8 rear, which meet, or exceed all current market requirements
- Front is 26 x 9-12, rears are 26 x 12-12
- Available in gloss black or machined finish with chrome center caps and rivets
- Center caps are included with each wheel, but lug nuts must be ordered separately

**MUD LITE XTR SS ALLOY 27"x14" TIRE/WHEEL KITS
27" XTREME TERRAIN RADIAL ATV TIRE/WHEEL KITS**

- Offer dramatic improvements in handling, ride, traction, braking and durability
- Combines the Mud Lite XTR radial tire and the all-new SS Alloy wheel
- Front 27x9R-14 and rear 27x11R-14 provide a super aggressive tread design featuring deep, angled, grooved lugs to achieve an exceptional level of traction
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market; available in SS108, SS112 and SS212 styles that feature a diamond-cut machined finish with black accents; SS212 is also available with a sleek satin black finish; SS312 features a satin black finish with machined accents
- Custom center cap included
- Lug nuts and center caps available separately; see page 289-291

**TERRACROSS R/T XD SS ALLOY
26"X14" TIRE/WHEEL KITS**

AGGRESSIVE MUD/SNOW/TRAIL RADIAL TIRE/WHEEL KITS

- High-performance, Extreme Duty 14" Terracross tires matched with the impressive SS Alloy line of wheels
- Ideal for mud, snow and sand
- Front is 26x8R-14 (UTV front is 26x9R-14); rear is 26x11R-14
- Extreme Duty construction translates into an extra sidewall ply along with increased sidewall and tread rubber thickness for even better puncture protection
- Special rubber compound is constructed of an extended-wear formula for incredibly long tread life
- UTV rated at 1,000-lb. (453kg) maximum load capacity per tire at 12 psi
- Feature exceptional traction and flotation due to interlocking non-directional tread pattern and wide footprint
- Radial construction makes for better control and smoother riding
- Wraparound shoulder lugs protect sidewall and offer great traction when riding on rutted trails
- Tires are 6-ply rated
- Non-directional
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market; available in SS108, SS112, SS212 styles that feature a diamond-cut machined finish with black accents or a sleek satin black finish; SS312 features a satin black finish with machined accents
- Custom center cap included
- Lug nuts available separately; see page 289-291

TERRACROSS R/T SS ALLOY 26"X12" TIRE/WHEEL KITS

AGGRESSIVE MUD/SNOW/TRAIL RADIAL TIRE/WHEEL KITS

- High-performance, Extreme Duty 12" Terracross tires matched with SS Alloy wheels
- Ideal for mud, snow and sand
- Front is 26x9R-12; rear is 26x11R-12; Honda Big Red front and rear are 25x10R-12
- Extreme Duty construction translates into an extra sidewall ply along with increased sidewall and tread rubber thickness for even better puncture protection
- Special rubber compound is constructed of an extended-wear formula for incredibly long tread life
- UTV rated at 1000-lb. (454kg) maximum load capacity per tire at 12 psi
- Feature exceptional traction and flotation due to interlocking non-directional tread pattern and wide footprint
- Radial construction makes for better control and smoother riding
- Wraparound shoulder lugs protect sidewall and offer great traction when riding on rutted trails
- Tires are 6-ply rated
- Non-directional
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market; available in SS108 and SS112 styles that feature a diamond-cut machined finish with black accents; SS108 is also available with a sleek satin black finish
- Custom center cap included
- Lug nuts and center caps available separately; see page 289-291

SS312

BAJACROSS SS ALLOY 26"X14" TIRE/WHEEL KITS

- Kits combine the durability of Bajacross tires with light, strong and stylish SS Alloy wheels
- ITP's most rugged and durable tire, the Bajacross is proven to handle the toughest and heaviest ATV/UTV applications
- 8-ply rating and 25% stronger construction
- Highest mileage of any ITP tire
- Extended-life rubber compound along with a unique overlapping tread pattern delivers a smooth ride with very little wear
- Lugs are stepped to keep consistent, predictable edges as the tire wears
- Wraparound lugs increase shoulder protection
- Front is 26x10R-14; rear 26x11R-14
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market thanks to Advancecast process
- SS212 wheels feature a lustrous platinum finish; SS312 wheels feature a satin black finish with machined accents
- Custom wheel cap included
- Lug nuts available separately; see page 289-291

**MAYHEM SS ALLOY SS312 26"X12" TIRE/WHEEL KITS
SUPER AGGRESSIVE MUD/TRAIL TIRE/WHEEL KITS**

- The nastiest, most aggressive mud/trail tire ever unleashed by ITP meets the most desirable wheel on the market
- Deep-lug tread pattern with an intimidating look; tears through mud holes and handles well on hard trails
- Lightweight carcass construction for improved comfort and handling
- Delivers tremendous bite for exceptional acceleration and braking
- Balanced cornering qualities
- Built to last with extended-wear rubber compound and 6-ply rating
- Attention-grabbing, embossed tribal artwork
- Front is 26x9-12; rear is 26x11-12
- SS Alloy SS312 wheels are the strongest, lightest and best-looking wheels on the market thanks to the Advancecast process; they feature a unique design and a satin black finish with machined accents
- Custom center cap included
- Lug nuts available separately; see pages 289-291

HOLESHOT MXR6 T-9 PRO TIRE/WHEEL KITS
MOTOCROSS ATV TIRE/WHEEL KITS

- Application: aggressive MX-type riding
- Front: 20x6-10 Holeshot MXR6 on T-9 Pro Series wheels
- Rear: 18x10-8 Holeshot MXR6 on T-9 Baja wheels
- Ideal for tracks with loose surfaces
- Widely spaced split knobs offer great bite and clean-out
- Front tires feature longer-wearing tread compound for extended life
- Rear tires have reinforced carcass for minimal stretching and a flat profile that provides consistent handling and performance; allows lower tire pressure for added control and ride comfort
- For racing, use beadlock or Baja reinforced wheels
- Order PART #0223-0043 for chrome replacement ITP lug nuts; see pages 289-291

**SAND STAR T-9 PRO MOD ATV/UTV TIRE/WHEEL KITS
DOUBLE-RIBBED FRONT/ANGLE PADDLE REAR SAND TIRE/WHEEL KITS**

- The ultimate in sand tire technology meets the latest in the T-9 Pro series of wheels
- Front tires feature an innovative patent-pending dual-rib tread design that provides unmatched steering control; lightweight carcass provides maximum flotation
- Rear tires have an eight-paddle, 30mm, patent-pending dual-scoop design that features full width primary and eight mini-scoops for quicker hookup and maximum acceleration; lightweight, flexible carcass provides excellent flotation and less drivetrain drag
- Front is 26x9-12; rear is 26x11-12
- The popular T-9 Pro series of spun aluminum wheels has been expanded to work with heavier ATVs and UTVs with the T-9 Pro Mod
- Off-road modular style and angled outer wheel face combine to add considerable strength to the wheel center without adding weight
- Lighter than the competition; reduced unsprung and rotating mass
- .19" (4.8mm) wall construction
- Double-rolled lip
- Lug nuts available separately; see pages 289-291

NOTE: All applications require use of ITP lug nut; stock lug will not work.

BIB MOUSSE®

- Made from a multi-cellular butyl material, Bib Mousse replaces conventional tubes, providing a pressure equivalent of approximately 13 psi
- Specifically designed for off-road competition use, at speeds up to 80 mph (130 km/h) – above this speed, heat buildup can lead to rapid destruction of the Bib Mousse, resulting in serious injury to the rider – under no circumstances should Bib Mousse be fitted to motorcycles for on-road use
- Bib Mousse may be used only with Michelin off-road tires, including StarCross HP4, StarCross MS3, StarCross MH3, S12 XC, M12 XC and Desert Race – because Bib Mousse is shaped for a perfect fit inside these Michelin tires (see sizing chart below); use of Bib Mousse with other brands of tires can lead to handling instability and possible destruction of the Bib Mousse
- Each Bib Mousse includes a tube of Bib Mousse Fitting Gel; installer must be sure to follow installation instructions supplied with the product

SUG. RETAIL **\$178.95**

KENDA TUFF-TUBES

- 2.5mm heavy-duty butyl-rubber tubes are designed to resist punctures and pinch flats
- Fits all popular MX sizes
- Tubes are two times thicker than OEM tubes and are designed specifically for motocross and off-road use
- For Valve Stem Types see page 293

MOOSE RACING

HEAVY-DUTY TUBES

- Heavy-duty tubes made specifically for off-road and motocross
- European made, these are the sturdiest, highest-quality tubes on the market
- 3mm thick natural rubber construction helps resist pinch flats
- TR-4 valve stems; for Valve Stem Types, see page 293

MAXXIS

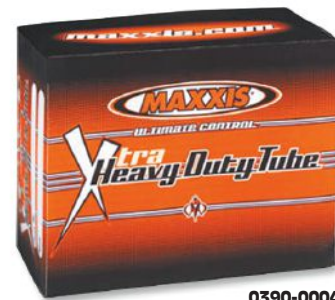

TUBES

HEAVY-DUTY AND EXTRA HEAVY-DUTY

- Made specifically for MX or off-road use
- Heavy-duty tubes are 1.5 mm thick to be more durable than standard tubes
- Extra heavy-duty tubes are 2.5 mm thick to offer superb durability in extreme conditions; nearly twice as strong as heavy-duty tube
- Both use synthetic rubber construction that offers excellent strength and will not allow air to leak like natural rubber
- For Valve Stem Types, see page 293

VALVE STEM KIT

- Includes metal, rubber and aluminum tire valve stems along with most popular styles of caps and cores
- Replacement parts sold separately

KIT INCLUDES:

- JS430 metal long stem, straight
- PVR59A metal stem, 90° bend
- PVR70M rubber stem, 90° bend
- TR412 rubber stem, straight
- TR413 rubber stem
- 8mm aluminum stem, 90° bend
- 8mm aluminum long stem, straight
- Metal long stem, straight with acorn cap
- 10mm aluminum long stem, straight

KIT INCLUDES:

- 10mm aluminum stem, 90° bend
- 14mm TV430 metal short stem, straight
- 16mm TV430 metal short stem, straight
- Chrome valve stem caps
- Green plastic caps (for Nitrogen fill)
- Black repl. caps
- #9000 short valve stem cores
- 4-in-1 valve stem repair tool

TUBELESS VALVE STEM

- Features a precision-machined body, valve core and self-sealing hex cap
- For normal or heavy-duty use
- Anchor nut, thrust washer and rubber seal included
- Fits .47" to .59" holes
- Lester™ mags and others may require a simple drill enlargement
- Sold each

SUG. RETAIL **\$11.95** PART # **75-012**

METAL VALVE STEM

- Metal tubeless tire valve stem fits all cast wheels with .327"-.339" holes
- Full-length threading for various rim thicknesses
- Comes with metal cap, lock nut and O-ring seal
- 1 3/16" effective length
- Replaces Schrader PART #6205
- Sold each

SUG. RETAIL **\$12.95** PART # **VS-1218R**

ANGLED VALVE STEM

- Great for ATVs and other tight applications
- Fits .327" to .330" holes
- Sold each

SUG. RETAIL **\$11.95**

PART # **MC-945**

VALVE STEMS

- Right-angle valve stem makes inflating tires on dual disc wheels easy
- Angled valve stem is a direct 90° bend from the surface of the wheel rim
- Ends the hassle of wrestling the air chuck between the brake discs
- Made of lightweight aluminum for less weight
- Short valve stem is for use on rear wheels
- For use on most tubeless tire rims
- Sold individually

DESCRIPTION	PART #	SUG. RETAIL

PART # 0360-0020

RIM LOCK AND VALVE STEM SEAL KIT

- Designed to effectively seal out dirt and moisture where they affect off-road wheels the most – at the valve and rim stems
- Aluminum rim-lock spacers and rubber valve stem grommets are custom contoured to allow even distribution of stress and seal out the elements
- Also includes two polished metal valve caps, one of which has a handy built-in valve stem remover
- Includes two of each: M8 Fuji nuts, aluminum rim lock spacers, rubber grommets and polished metal valve caps

SUG. RETAIL \$9.95 PART # 0361-0065

VALVE STEM GROMMETS AND CAPS

- Durable rubber grommets are contoured to seal tightly around valve stems and seal out dirt and moisture which can cause friction, corrosion and flats
- Set of four grommets and four black plastic valve stem caps

SUG. RETAIL \$4.95 PART # 0361-0064

TWIST TIRE SCREWS

- Twist Gripper™ screws provide traction for heavy equipment and groomers
- High-grade carbon steel hex screws with a carbide insert and specially designed threads
- Zinc electroplated to extend the life of the screw with an anti-corrosive layer to stop oxidation
- All have extra-coarse threads giving Woody's Twist tire screws holding strength to stay in place season after season, and ease removal
- The carbide tip increases traction on many surfaces: snow, ice, mud, slippery rocks, wood, hard-packed dirt and gravel, and hills
- Also provide added traction for rounding corners and for surprises under the water
- Packaged in a clearly marked, sturdy plastic container for easy shipping and display

- 0362-0015**

TIRE WARMERS

- Nomex® inner liner; melt proof
- Thin, light and flexible structure allows easy on and off
- Evenly spaced heating element for full-coverage heating
- Carbon Kevlar insulation for better heat retention
- Nylon carrying bag for easy storage
- Feature a bungee cord fitment system for a perfect fit; easy to install
- Accurate thermostat for positive temperature control
- Amber light indicates heating and green light shows that full temperature has been reached
- Basic model features one temperature setting to get your tires ready
- Dual-temperature model features two heat settings (130° and 174°F) selectable by flipping a toggle switch, which allows you to save on heat cycles or to safely heat rain tires
- Superbike size for bikes with rear tires 180mm-205mm
- 250 GP size for bikes with rear tires 155mm-170mm

Basic model	0362-0011	\$308.95
Dual-temperature model	0362-0032	368.95

TIRE WARMERS

- The best tire warmers you can get; use the exact same warmers as top-level AMA factory racers and World Teams
- Allow fast cornering from the first lap and offer longer tire wear time
- Saves heat cycles so tires don't have to heat up, cool down and then heat up again
- Highest watt-density; rear warmers draw 600W, fronts draw 550W for the most watts/square inch available
- Slow, yet powerful, warmer permeates the complete tire carcass with stable heat
- Available in Standard, Pole Position and Pro-Line models
- Sold in sets of two
- Superbike, 250 GP and Supermoto sets can be used with all compound race tires

STANDARD FEATURES

- New quick disconnect power cord adds a new level of safety to protect the warmers and makes moving wheels with the warmers mounted easier
- Tough, 1000-denier Cordura® outer shell
- Inner lining is made of melt-proof aramid fiber
- High-impact thermosats and full-coverage Kapton® heating elements combine with Nomex® insulation that keeps heat from escaping and diffuses it to heat the whole tire surface
- New integral neoprene side channels cover more of the tire/wheel for improved insulation and allows the tire warmer to fit more closely to the tire
- Light turns from red to green when tire reaches full temperature

SUG. RETAIL\$430.95

POLE POSITION TIRE WARMERS

- Change operating temperature with a flip of a switch; low (130°F), medium (155°F) and high (175°F)
- Light turns from red to green when tire reaches full temperature
- Melt-proof liner
- Hard-shell carrying case
- Most affordable temperature adjustability

SUG. RETAIL\$552.95

PRO-LINE TIRE WARMERS

- Aluminized Kevlar® exterior provides a greater level of insulation
- New digital controller includes: both target temperature and actual temperature are visible; running time shows how long the warmer has been running; quick disconnect power cable for safety and convenience; normal mode or gradual heat up modes can be selected; safety shut off; displays Fahrenheit or Celsius; dual voltage controller can accept either 120 or 240 volts with no changes
- Digital display, microprocessor-controlled temperature control
- Push-of-a-button adjustable temperature settings
- Solid-state controller and tire surface temperature sensor
- Hard-shell carrying case for warmers and soft foam-lined case for controllers

NOTE: Not recommended for street use.

NOTE: Do not use a tire warmer on a smaller tire than it was designed for. Overlapping or bunching the tire warmer can damage both the tire warmer and the tire.

ATV BEAD BUSTER

- Heavy-duty Bead Buster easily removes old hard tires from rusty rims as well as safety bead tires from wheels
- Innovative tire tool features a leverage arm connected to a vertical breaking shoe that pushes straight down on the bead rather than a conventional bead breaker with an arcing motion
- Applying the force straight down breaks the bead much easier on old or stubborn tires; the vertical motion also prevents the shoe from sliding down the sidewall and pulling away from the bead
- Accessory kit sold separately
- Accessory kit includes center post thread protector, installation/removal bar and wheel holder

DESCRIPTION	PART#	SUG. RETAIL	DESCRIPTION	PART#	SUG. RETAIL
Bead buster	3810-0052	\$624.95	Accessory kit	3810-0012	\$211.95

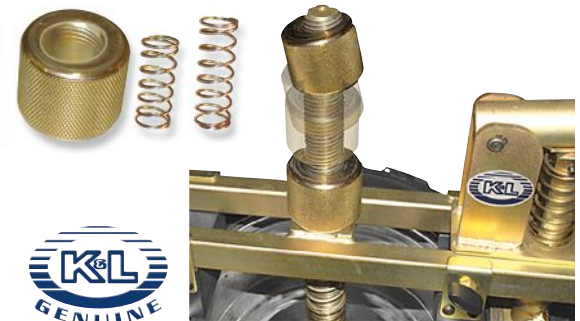

3-IN-1 TIRE BEAD STARTER/SEATER/EXPANDER

- All-in-one answer to stubborn tires is a must in any tire center
- Easy to use; just mount tire to wheel, position bead starter, then cinch down with ratchet lever. Add air until bead begins to engage, then slowly ease belt tension as more air is added

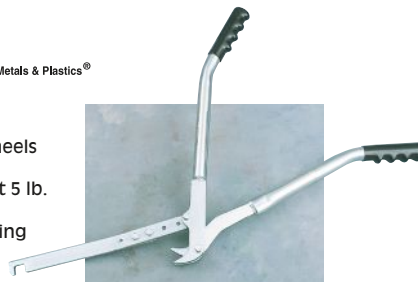

SUG. RETAIL**\$93.95**

PART # **3810-0023**

ATV BEAD BREAKER

- Breaks bead on 8", 9", 10" and 11" wheels in seconds
- Zinc-plated construction; weighs just 5 lb.
- Easy two-hand operation
- Small enough to pack along on hunting trips or your next visit to the track
- Won't damage tires and rims

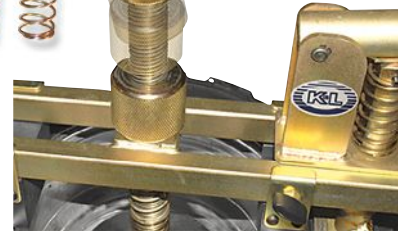

SUG. RETAIL**\$99.95** PART # **8000-1270**

QUICK-RELEASE KNOB FOR BEAD BUSTER

- Cuts the time needed to break an ATV bead by 25%
- Slips over the threaded part of shaft on K&L bead buster PART #3810-0052
- Slides into place in less than one second
- Requires less than one turn to tighten

SUG. RETAIL**\$66.95** PART # **3810-0024**

TIRE BEAD BREAKER

- Heavy-duty cast-iron alloy construction; 5 1/2 lb.
- Measures 8" x 6 3/4" x 1 3/4"
- Separates beads on all on-road and off-road bikes
- Packaged with instructions
- Not for 170 or larger tires

SUG. RETAIL**\$52.95** PART # **4000**

TIRE BEAD TOOL

- Easy help while mounting tire on the rim
- Perfect tool for compressing tire bead during tire changing

SUG. RETAIL**\$18.95** PART # **3810-0039**

BEADPRO TIRE BEAD BREAKER AND LEVER TOOL SET

- Innovative multi-use tire tool set
- Breaks the bead on most street and off road motorcycle tires
- Integrated tire spoons for tire removal and installation
- Light weight and compact size is perfect for tool packs
- Ergonomic handles with crossguard to keep hand from riding forward
- Forged 7075 T-6 aluminum construction for strength and durability
- Black anodized finish
- Patent pending

BEADPRO FS (FORGED STEEL)

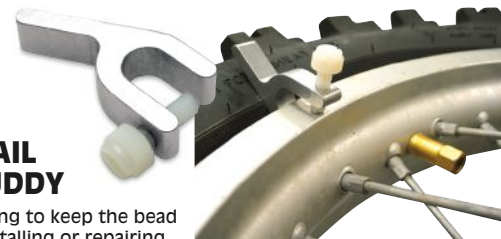

- Heavy-duty shop version of Motion Pro's innovative BeadPro tire tool
- Innovative multi-use tire tool set
- Breaks the bead on most street and off-road motorcycle tires
- Integrated tire spoons for tire removal and installation
- 16" L handles makes removing and installing tires a breeze
- Ergonomic design with crossguard to keep hand from riding forward
- Chrome vanadium forged steel construction for heavy-duty shop use
- Durable black oxide finish
- Patent pending

SUG. RETAIL \$59.95 PART # **3810-0053**

T-6 TRAIL BEAD BUDDY

- No more fighting to keep the bead down while installing or repairing your off-road tires
- Assists in pushing the tire bead down into the drop center of the rim while using tire tools to change tires
- Machined from tough 6000-series aluminum
- Lightweight and compact enough for any tool pack
- Delrin®-securing thumb screw keeps rims scar-free
- Not recommended for use with Bib Mousse-type off-road tubes

SUG. RETAIL \$11.95 PART # **3810-0016**

BEAD POPPER

- Designed for breaking the bead on on-road and off-road motorcycle tires
- Great for the shop, trail or on the road
- Compact and lightweight (only 3.7 oz.), stores easily in your emergency tool pack or tool box
- Can be used with the wheel on or off the motorcycle
- Will not scratch the wheel
- Easier and more convenient than press or lever tools
- Made of a durable, high-impact plastic
- Not for use on ATV tires
- Made in the U.S.A.

SUG. RETAIL \$19.95 PART # **3810-0025**

BEAD BUDDY II AND SUPERMOTO BEAD BUDDY

- Bead Buddy II PART #3810-0027 is an improved design of the original Bead Buddy
- Durable 6061 aluminum construction with blue anodized finish and laser engraved logo
- A must for installing Bib Mousse tubes
- Used to push the tire bead down into the drop center of the rim on off-road wheels while using tire tools to change tires
- Hooks over spoke and pushes bead down on opposite side of tire from tire irons
- No more fighting to keep bead down while installing off-road tires
- Patent pending
- Supermoto Bead Buddy PART #3810-0015 for use on 3.5"-5" wheel widths

TREAD DOCTOR SNIPER KIT™

- Includes a Tread Doctor Knobby Cutting Tool with Sniper Kit™
- Custom cut your own lug patterns and get sharper knobbies on worn tires
- This kit includes a Tire Sniping cutting head, 10 replacement blades and our specially designed heated carbide cutting blade used on the Tread Doctor™
- With the Tread Doctor Sniper Kit, you can sharpen your knobbies with the cutting blade and then change heads to snipe your tire for the ultimate custom traction tire
- Tread Doctor lightweight heated tool lets you custom-design your tread pattern easily and quickly with the tire sniper, then quickly switch heads and cut new edges into your dull, worn-out knobby tires; refresh your front or rear tire before installing a new one and save money
- Tread Doctor Sniper Kit extends the life of your tire and gives you optimal tire performance throughout the life of your tires
- Use for motocross, trail, ATV/UTV, enduro and flat track racing and riding
- Unit includes on/off switch and holding stand
- Built to UL standards for design, construction and operation
- Made for enthusiasts by enthusiasts

SUG. RETAIL \$79.95 **PART # 3810-0057**

TREAD DOCTOR KNOBBY CUTTING TOOL™

- Tread Doctor Knobby Cutting Tool™ provides new traction on worn tires
- Lightweight heated carbide blade cuts new edges into your dull, worn-out knobby tires
- Refresh your front or rear tire before installing a new one – extends the life of your tire
- This easy do-it-yourself tool gives you new traction for every ride
- Use for motocross, trail, ATV/UTV, enduro and racing
- Unit includes on/off switch and holding stand
- Brass sniper cutting head (sold separately) adds tire sniping ability to your Tread Doctor Knobby Tool
- Snipe tires for custom patterns – perfect for flat track, enduro and motocross
- Fits any Tread Doctor heating iron
- Includes one brass cutting head and 10 replacement cutting blades
- Made for enthusiasts by enthusiasts

Shown with optional Strongarm II

TIRE CHANGER AND STRONGARM II

- Tire changer is specifically designed for motorcycle tire changing
- 1.5 hp motor
- Handles 6"-24" wheel diameter; 2"-10" tire width
- Strongarm II helps with new generation tires like Touring and Police bikes that have extremely stiff sidewalls
- Strongarm II uses air pressure to assist holding tire's bead in the drop center of wheel, even while turntable is revolving
- Strongarm II mounting system is designed to work with most popular tire machines and helps to keep tire changes a one-person job

ORDERING INFORMATION: NO PARTSNET/DRAGNET WEB ORDERS. THESE ITEMS ARE DROP SHIPPED FROM K&L. NO RETURNS.

TIRE CHANGING STAND WITH BEAD BREAKER

- Makes tire changing a breeze
- Great for shop or portable enough for track use
- Fits most motorcycle wheels from 16" to 21" in diameter
- Heavy-duty steel construction, long handle for maximum force for breaking the toughest beads
- Solid wide base makes for solid foundation during use
- Rubber-coated top ring helps protect wheel from scratching
- Adjustable bead popper
- Black powder-coated finish and zinc-plated for years of use
- Center post with wing nut keeps rim locked down during procedure

SUG. RETAIL\$107.95 PART # **0365-0037**

PORTABLE TIRE CHANGING STAND

- Holds wheel in place during tire change
- Makes changing tires an easier job
- Compatible with wheels from 17" and up
- Breaks down for easy storage
- Great for trackside or shop use

SUG. RETAIL\$75.95 PART # **0365-0016**

TIRE STATION TIRE-CHANGING STAND AND AIR TANK HOLDER

- Combine with your air tank to make the ultimate tire-changing station
- Forms a cage around your air tank and protects it from damage
- Works best with 5- to 10-gallon air tanks (14.5" to 24.5" in length and 9" to 12.75" in diameter)
- Can be used with or without air tank installed
- Durable steel construction
- Long-lasting powder-coat finish
- The perfect pit accessory
- Air tank not included
- Not recommended for use with street wheels

SUG. RETAIL\$124.95 PART # **0365-0034**

PORTABLE TIRE CHANGER

- Adjustable for changing tires at a comfortable work height
- Holds wheel in place during tire change
- Makes changing tires an easier job
- Comes with a reducer mini ring
- Compatible with wheels from 10" and up
- Breaks down for easy storage
- Great for trackside or shop use

STOP & GO

POCKET TIRE PLUGGERS FOR TUBELESS TIRES

0364-0001

- Revolutionary new device easily installs mushroom-shaped rubber plugs into all tubeless tires on the wheel
- Plugging device drives the plug into the hole with a twist of the Allen wrench; plug then expands under pressure to fill the punctured area; a firm pull on the stem seats the mushroom head on the inner wall allowing no air to escape
- Pocket Tire Pluggers kit includes plugging device, nozzle adapter, rasp tool, probe tool, retractable razor knife, Allen wrench, 15 mushroom plugs (5/16" dia. x 3/4" L stem), laminated instructions and comes in 3 1/2" x 7 1/2" zippered pouch; total weight only 12 oz.

DESCRIPTION	PART #	SUG. RETAIL
Pocket Tire Pluggers	0364-0001	\$37.95
Pocket Tire Pluggers w/ CO ₂ Repair plugs (50-pk.)	3075	53.95

TUBELESS T-HANDLE TIRE REPAIR KIT

- Sometimes tubeless tires can sustain damage that is beyond the ability of a mushroom plug
- A tear from jagged items can require the use of what is known as a string or rope plug
- Kit includes 20 brown rubber reinforced inserts (each 4" long), sturdy T-handle reamer, T-handle insertion tool, tube of rubber cement, retractable razor blade, repair instructions and a durable zippered canvas bag
- Kit measures 5" x 2" x 6" and weighs only 11 oz.

SUG. RETAIL **\$20.95** PART # **0364-0032**

ATV TIRE REPAIR KIT

- Kit contains everything to make a speedy repair of tubeless ATV tires while still on the rim: split-eye tool, five plugs, CO₂ canisters, rubber cement and adapter, all in a handy zippered pouch
- Simply push the repair plug straight into the puncture and pull the tool straight out; plug material is extremely pliable so trimming is an option
- Each CO₂ canister provides 8-9 lb. of inflation at 850 psi; that means each of these canisters will fully inflate an ATV, golf cart, rider mower or utility vehicle tire

NOTE: CO₂ cartridges cannot be transported on an aircraft.

DESCRIPTION	PART #	SUG. RETAIL
ATV tubeless tire repair kit	0363-0004	\$21.95

AUTOMATIC TIRE INFLATION KIT

- Kit contains four canisters of CO₂ and a reusable valve adapter with brass fittings
- Each canister produces 8-9 lb. of pressure; generally takes all four canisters to reach 24-32 lb. of pressure, depending on the size of the tire
- Can be used on a variety of vehicle tires

NOTE: CO₂ cartridges cannot be transported on an aircraft.

SUG. RETAIL **\$24.95** PART # **0363-0005**

MINI AIR COMPRESSOR

- Portable 12V compressor measures only 4" x 2" x 6" and weighs just 14 oz.
- Features a built-in LED light and 0-120 psi gauge
- 4" tire valve hose; 66" power cord
- 12" extension alligator clips; 36" extension lighter adapter
- Includes sports needle adapter, inflatable adapter, complete instructions and rugged zippered carry case

SUG. RETAIL **\$39.95** PART # **0363-0040**

TUBELESS TIRE PLUG GUN

- On-the-wheel repair for all tubeless tires
- Gun inserts a natural rubber plug into the puncture area that expands under pressure to seal the hole
- Mushroom-shaped head seats on the inner wall
- Includes plug gun, nozzle and probe tool, retractable razor knife, reaming tool, 25 mushroom plugs, instructions and 9" x 6" zippered pouch
- Extra plugs sold in bags of 50

SUG. RETAIL **\$47.95** PART # **1075**

TUBELESS TIRE PATCH/PLUGS

- Inside/out patch plug for stopping air leaks caused by punctures
- Includes six patch plugs, an abrasive thumb buffer, and a .50 fl. oz. tube of rubber cement
- Requires removing the tire from the wheel
- Plug measures 32mm and features a metal quill to guide through the puncture

DESCRIPTION	PART #	SUG. RETAIL
Patch/plugs (6-pk.) and rubber cement	3002	\$14.95

ULTRAFLATE PLUS TIRE INFLATOR

- Trigger controlled technology for fast, easy and controllable CO₂ inflation
- Built-in "trigger lock" prevents accidental CO₂ discharge
- Valve interface: screw on for Schrader valves, slip onto Presta
- Cartridge compatibility: 12, 16, 20, 25 gram threaded and non-threaded CO₂, and Big Air cartridges
- Construction: glass-reinforced nylon with brass valve internals
- Weight: 72 grams

NOTE: CO₂ cartridges cannot be transported on an aircraft.

SUG. RETAIL\$21.95 PART # 0363-0045

PROFLATE ELITE TIRE INFLATOR

- Trigger-controlled technology for fast, easy and controllable CO₂ inflation
- Built-in dirt/water cover and built-in pressure indicator
- Valve interface: EZ connect/auto detect head automatically grips valve when inflation starts
- Cartridge compatibility: 12, 16, 20, 25 gram threaded and non-threaded CO₂ cartridges
- Construction: glass reinforced nylon with brass valve internals
- Weight: 55 grams

NOTE: Does not work with 12g non-threaded or BigAir cartridges.

NOTE: CO₂ cartridges cannot be transported on an aircraft.

SUG. RETAIL\$24.95 PART # 0363-0046

AIR CHUCK ELITE

- Top-of-the-line mini inflator
- Weighs only 17g
- All metal alloy construction
- Push-to-inflate technology for fast, easy and controllable single-handed CO₂ inflation
- Fits Presta and Schrader valves
- Works with all Genuine Innovations 12g, 16g, 25g threaded CO₂ cartridges and Big Air
- Made in the U.S.A.

NOTE: CO₂ cartridges cannot be transported on an aircraft.

WARRANTIES AND GUARANTEES

We do not guarantee the items sold by us or warrant the merchantability or fitness of purpose. Manufacturers supply their own warranties and guarantees and most of them do not permit a wholesaler or distributor to make any adjustment, replace any part or accept for return or exchange any defective or unsatisfactory item. Please follow the guarantee instructions when provided by the manufacturer. Any damages arising from the design or manufacturing of any item are the sole responsibility of the manufacturer.

CATALOG CONTENTS

We believe the contents and specifications of this catalog are correct. We assume no liability for errors in listings, specifications, part numbers, prices or model applications. We reserve the right to change specifications, product descriptions, product quality, pricing and application at any time without further notice and without further obligation. The reproduction of any material from this catalog is forbidden without our written approval.
