# ALWAYS ADVANCING

## 2014 THOR

---

Every great victory is the accumulation of thousands of ordinary efforts that no one sees or appreciates. Those early mornings and long motos at the practice track, the extra miles on the road bike, the countless hours of conditioning, and the singular focus and commitment to keep advancing.

That commitment inspires us to continually strive to advance the performance, durability, comfort and style on every piece of moto equipment we produce. With feedback and input from the best riders on earth, we create products that are the result of countless hours of design and testing to ensure they don't just meet your expectations, they exceed them.

# A HIGHER LEVEL OF PERFORMANCE

## 2014 PRIME RACEWEAR

---

The new Prime Kit is designed for riders that want the lightest-weight, least restrictive kit available. Inspired and tested by our top riders, this minimalist kit provides just what you need for race-day performance.

The jersey features an ultra-cool lightweight fabric with a raglan cut for great breathability and freedom of movement. We stripped the pant down to its bare essentials and utilized a durable, yet light weight polyspan fabric for the main chassis construction. This unique material provides great stretch for mobility and ensures maximum airflow while wicking perspiration away from the body. This is due to the material not having the typical polyurethane coating on the interior which blocks airflow. The pant is a heavyweight performer with a light weight construction that tips the scales at just over one pound (500g).

### PRIME JERSEY

- Shaped knit cuffs and collar for less restriction
- 4-way stretch moisture wicking material
- Raglan style sleeves for a no-bind fit
- Sublimated no-fade graphics
- Available in sizes S-2XL
- Imported

### PRIME PANT

- Ratchet style waist with lock-down closure
- Multi-stretch fabric chassis for increased mobility with minimal weight
- Spandura stretch panels increase mobility and improve airflow
- Generous knee and shin areas to accommodate knee guards and braces
- Leather inner knee panels for heat resistance and durability
- Double and triple stitched areas for maximum durability
- Cuffless leg openings
- Sewn in liner for comfort
- Available in sizes 28-38
- Imported

# THE ULTIMATE RACEWEAR HYBRID

## 2014 FLUX RACEWEAR

---

Flux Racewear is the ultimate hybrid. The perfect blend of technical performance and controlled airflow, the Flux kit is everything you would expect in a premium set of race gear. Every detail has been refined to maximize performance, comfort, and durability.

This semi-vented kit delivers championship performance with just the right amount of airflow to keep you going lap after lap, moto after moto. The finest materials and construction methods are utilized to produce the next level in performance racewear.

### FLUX JERSEY

- Collar features multiple lycra stretch panels to provide a great fit and prevent a sagging neck line
- Arm and pit vent panels combined with a fully vented back panel
- Moisture wicking material
- Tacky silicone tail print keeps the jersey from rising when tucked into pants
- Cuffless sleeve construction with stretch rib panels
- Available in sizes S-2XL
- Imported

### FLUX PANT

- Pre-curved 900D poly oxford chassis with perforated and solid paneling increases cooling and supports your race posture
- Strategically placed thigh TPR's with integrated vent panels
- Kevlar® stitching around leather knee panels
- Accordion stretch Spandura knee panels for expansion and ventilation
- Lightweight, cupped TPR knee paneling for roost deflection
- Debossed full grain cowhide leather inner knee panels offer unmatched heat resistance and durability
- Ride-lite perforated inner liner with 4-way spandex panel at the waist for uninhibited movement
- Ratchet style waist with lock-down closure
- 4-way stretch rear yoke contours the body in all positions

### HOW TO DETERMINE YOUR GLOVE SIZE

Thor glove size is determined by measuring the width of your palm at its widest point below the knuckles. To get this measurement, place your hand on the page with the intersection of your thumb and palm positioned at the dotted "V" line and on top of the Men's and Women's measuring guide. This will give you your estimated glove size.\*
