

ARCTIVA® POWERSPORTS OUTFITTER

2014 PRODUCT GUIDE

ARCTIVA

2014

Arctiva is dedicated to the sport of snowmobiling. Countless hours are spent researching and designing performance outerwear and layering garments specifically for the powersports enthusiast. Everything we make uses top quality materials and construction. That, coupled with our innovative design and extensive product testing program, makes for the most technical snowmobiling gear you can buy. So whether your ideal day is hauling the sleds north to your favorite trails, meeting up with the crew in the backcountry, or beating your best lap time at the snocross track, we've got you covered.

COMP 8 INSULATED

COMP 8 GEAR  TRI-MODE EQUIPPED

A performance blend of race-inspired design and all-weather comfort. Comp 8 Insulated begins with the appearance of the RR collection and adds an extreme condition insulation package and multiple oversized zip-vents. Race ready looks with an endurance mentality, the Comp 8 Insulated is for those who approach trails with a healthy competitive streak.

COMP 8 RR SHELL

COMP 8 RR GEAR  **TRI-MODE
EQUIPPED**

Comp 8 RR Gear is designed with a double-edged approach - the ability to block wind and water while allowing excess heat escape. Designed to accommodate tech vests and the abrasion that racing brings; the Comp 8 RR shell gear has also been emblazoned in race-inspired design cues. Winning must first be visualized before it can be realized.

MECH 6 INSULATED

MECH 6 GEAR

Mech 6 Insulated gear is the premier collection for taking your sled to the most inhospitable of environments. Durability and waterproof properties are standard. Additionally, a venting and insulation package is integrated to keep core temperature in check. Fleece lined cargo pockets, a powder skirt, and a removable liner round out the package. Wear Mech 6 on your next expedition and create your mark on uncharted trails.

COMP 8 YOUTH INSULATED

COMP 8 YOUTH GEAR  **TRI-MODE
EQUIPPED**

A performance blend of race-inspired design and all-weather comfort. Comp 8 Youth Insulated begins with the appearance of the RR collection and adds an extreme condition insulation package and multiple oversized zip-vents. Race ready looks with an endurance mentality, the Comp 8 Youth Insulated is for those who approach trails with a healthy competitive streak.

ARCTIVA BOOTS BY trukka

MECHANIZED BOOT

Mechanized Arctiva boots by Trukke are designed to keep feet toasty warm. This boot has a removable Thinsulate® liner with a moisture wicking lining to keep feet well insulated and dry. The new ratcheting buckle on the forefoot strap combined with Speed Lacing, makes boot entry and removal a cinch and the 12 inch height easily accommodates deep snow. A waterproof lower blocks the entry of snow and ice while the highly water repellent nylon upper helps keep water at bay. The grip tread sole provides unsurpassed traction on snowy surfaces and a full length internal EVA midsole provides extra support for all day comfort. RATED TO -40° F (-40° C)

- + 12" TALL BOOTS
- + INNER SIDE OF REMOVABLE LINER HAS MOISTURE WICKING FLEECE
- + THINSULATE® THERMAL INSULATION IN REMOVABLE LINER
- + FULL-LENGTH INTERNAL EVA SOLE FOR EXTRA COMFORT/SUPPORT
- + SPEED LACING
- + MICRO-ADJUSTABLE FOREFOOT RATCHET BUCKLE SYSTEM FOR CUSTOM FIT
- + GRIP-TREAD SOLE FOR TRACTION ON SNOWY SURFACES

MECHANIZED BOOT

COMP BOOT

Comp Arctiva boots by Trukke feature a removable Thinsulate® insulated liner that has a high wicking fleece interior to keep feet warm and dry. At 10 inches tall, they are high enough to keep out snow, yet low enough for aggressive snowmobile riding. Its new micro-adjustable, ratcheting forefoot power strap & fast lacing system holds the heel securely in place while keeping the foot from shifting inside the boot. The grip tread sole provides excellent traction on slippery surfaces. With an EVA mid-sole that provides a secure platform for the foot, the Comp is great for all types of outdoor winter activities. RATED TO -40°F (-40° C)

- + 10" TALL BOOTS
- + REMOVABLE THINSULATE® LINER WITH WICKING FLEECE LINING & CUFF
- + FULL-LENGTH INTERNAL EVA FILLER IN SOLES
- + EXTRA PADDING IN TONGUE FOR ALL DAY COMFORT
- + SPEED LACING SYSTEM FOR EASY ON AND OFF
- + REPLACEMENT BOOT LINERS SOLD SEPARATELY

LAYERING

LAYERING SYSTEM

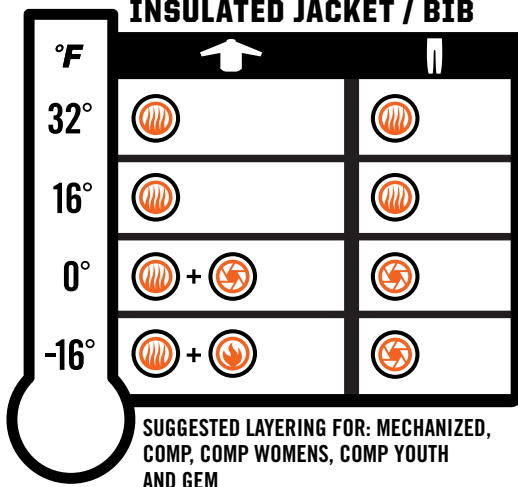

A proper Layering System is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton based products are absolutely not part of a Layering System. This includes sweatshirts and denim products.

During the activity of snowmobiling you generate moisture (sweat). The harder you ride, the more moisture you generate. Cotton products trap this moisture, which in turn, transmits cold directly to your body.

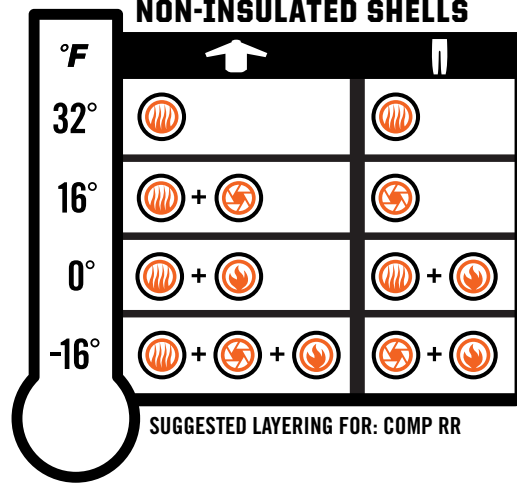

SIZING CHART LAYERING

SIZES	SMALL	MEDIUM	LARGE	XL	2XL
CHEST	34-36	38-40	42-44	46-48	50-52
SLEEVE	31-32	32-33	33-34	34-35	35-36

NON-INSULATED SHELLS

EVAPORATOR JERSEY

EVAPORATOR PANT

EVAPORATOR WICKING BASE LAYER

An effective layering system starts with a base layer which wicks moisture (sweat) away from your body. This base layer must be worn directly against the skin. Our Evaporator gear, made from a wicking quick-dry material, is the base layer for the Arctiva layering system.

- + QUICK-DRY MOISTURE WICKING FABRIC
- + TWO-SIDED MICRO DENIER KNIT CREATES AIR POCKETS FOR IMPROVED INSULATION
- + EC2 QUIK-DRI™ ELECTROSTATIC PROCESS QUICKLY REMOVES MOISTURE AWAY FROM SKIN
- + CREW NECK DESIGN FOR COMFORT

REGULATOR JERSEY

REGULATOR PANT

REGULATOR MID-WEIGHT FLEECE INSULATION

The second layer in the Arctiva system is the Regulator. Made from a unique blend of polyester/Spandex yarns resulting in an incredibly soft hand. When paired with the Evaporator base layer the combination is ideal for riding in moderate to cold temperatures.

- + MID-WEIGHT POLYESTER/SPANDEX FOR ADDITIONAL WARMTH
- + 360 DEGREE STRETCH FOR COMFORT AND COMPLETE RANGE OF MOVEMENT
- + EC2 QUIK-DRI™ ELECTROSTATIC PROCESS PERMANENTLY SPEEDS MOISTURE AWAY

INSULATOR JACKET

INSULATOR PANT

INSULATOR HEAVY-WEIGHT FLEECE INSULATION

For more extreme temperatures, the Arctiva Insulator series provides the additional warmth required. The Insulator gear is made of a blend of micro polyester fleece/Spandex and combined with Evaporator or Regulator layers, provides extra warmth in extremely cold environments.

- + GEO MICRO FLEECE FOR EXTREME COLD CONDITIONS
- + EC2 QUIK-DRI ELECTROSTATIC PROCESS PERMANENTLY SPEEDS MOISTURE AWAY
- + HIGH LOFT GRID CHANNELS IN FABRIC FOR ENHANCED BREATH-ABILITY AND WICKING
